## INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders  
Robinsons Retail Holdings, Inc.  
43rd Floor, Robinsons Equitable Tower  
ADB Avenue corner Poveda Sts., Ortigas Center  
Pasig City, Metro Manila

### Opinion

We have audited the consolidated financial statements of Robinsons Retail Holdings, Inc. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2018 and 2017, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2018 in accordance with Philippine Financial Reporting Standards (PFRSs).

### Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

### ***Acquisition of Rustan Supercenters, Inc.***

On November 23, 2018, the Group completed the 100% acquisition of Rustan Supercenters, Inc. (RSCI) for a total consideration amounting to ₱13.80 billion. The acquisition was made through a share for share swap involving all shares of RSCI in exchange for primary common shares of RRHI equivalent to 12.15% stake. The Company accounted for this acquisition as a business combination. This transaction is significant to our audit as business combination transaction requires significant management judgment and estimates, which includes determining whether the transaction is an acquisition of a business or a group of assets, and allocating the purchase consideration to the identifiable assets acquired and liabilities assumed. The provisional goodwill arising from this business acquisition amounted to ₱9.11 billion.

The disclosures related to the acquisition are included in Note 19 to the consolidated financial statements

### ***Audit Response***

We read the purchase agreements and documents related to the acquisition. We evaluated management's judgment on whether the acquisition qualifies as a business or group of assets by reference to the existing inputs, processes and outputs of RSCI at the date of acquisition. We reviewed the identification of the underlying assets and liabilities of the investee based on our understanding of RSCI's business and existing customer, vendor and employee contracts. We reviewed the provisional purchase price allocation including the valuation of trademarks. We assessed the competence, capabilities, and objectivity of the Group's external specialist. We involved our internal specialist in the review of the methodology and assumptions used in the valuation of the trademarks. We assessed the methodology adopted by comparing common valuation models and compared the relevant information supporting the sales forecast, royalty rate and growth rate against historical and industry performance and relevant external information. We evaluated the discount rate used by assessing whether the underlying parameters used represent current market assumptions of risks specific to the asset being valued. We also reviewed the disclosures in the notes to the consolidated financial statements.

### ***Adoption of PFRS 15, Revenue from Contracts with Customers***

Effective January 1, 2018, the Group adopted the new revenue recognition standard, PFRS 15, *Revenue from Contracts with Customers*, under the modified retrospective approach. The adoption of PFRS 15 resulted in significant changes in the Group's revenue recognition policies, process, and procedures. The adoption of PFRS 15 is significant to our audit because this involves application of significant management judgment and estimation in the following areas: (1) assessment whether all promises in the franchise contracts meet the definition of distinct performance obligations; (2) determination of the stand-alone selling price of goods and loyalty points for the allocation of the transaction price; (3) assessment of the timing of revenue recognition; and (4) presentation of marketing support and other amounts arising from trading arrangements and conformes.

The disclosures related to the adoption of PFRS 15 are included in Notes 3 and 20 to the financial statements.

#### *Audit Response*

We obtained an understanding of the Group's process in implementing the new revenue recognition standard, including revenue streams identification and scoping. We reviewed the PFRS 15 adoption papers and accounting policies prepared by management, including revenue streams identification and scoping and contract analysis.

In relation to initial franchise fees, we reviewed sample franchise contracts focusing on the identification of the performance obligations and the timing of revenue recognition. We reviewed management's assessment on whether the activities being performed prior to franchise store opening are distinct performance obligations. In relation to customer loyalty program, we reviewed the management's determination of the estimated stand-alone selling price of loyalty points by comparing the underlying assumptions (e.g., redemption rate of loyalty points) against available historical data, and the allocation of the transaction price between the sale of goods and loyalty points.

In relation to marketing support and other amounts arising from trading arrangements and conformes, we reviewed sample trading arrangements and conformes, and checked management's assessment on whether the promises within those documents meet the definition of distinct performance obligations. We also reviewed their presentation in the consolidated statements of comprehensive income.

We also reviewed the transition adjustment calculation of the management.

#### ***Existence and completeness of inventory***

The Group's inventories comprise 17% of its total assets as of December 31, 2018, as disclosed in Note 9 of the consolidated financial statements. The Group has 1,910 company-owned stores and warehouses throughout the country as of December 31, 2018. We focused on this area since inventories are material to the consolidated financial statements and are located in various sites across the country.

#### *Audit Response*

We obtained an understanding of the inventory management process which includes inventory count procedures. We assessed and tested the relevant inventory controls, and observed the conduct of the inventory count procedures for selected stores and warehouses and performed test counts. We traced test counts to the inventory compilation to determine if the inventory compilation reflects actual inventory count results. We reviewed the reconciliation of the valued physical inventory compilation with the general ledger account balances and evaluated the disposition of the reconciling items. We tested the roll forward procedures on inventory quantities from the date of inventory count to reporting date on a sample basis.

#### ***Impairment assessment of trademarks and goodwill***

As of December 31, 2018, the Group's trademarks and goodwill arising from business combinations amounted to ₱3.20 billion and ₱3.38 billion, respectively, which are significant to the consolidated financial statements. Under PFRS, the Group is required to annually test the amount of trademarks with indefinite useful lives and goodwill for impairment. The recoverability of trademarks and goodwill is

considered a key audit matter as the balances of these assets are considered material to the consolidated financial statements. In addition, the management's assessment process requires significant judgment and is based on assumptions, specifically gross margins, revenue growth and discount rates for value-in-use calculation and selected comparable entities for EV/EBITDA (enterprise value/earnings before interest, taxes, depreciation and amortization) multiple. The Group's disclosures about trademarks and goodwill are included in Note 14 of the consolidated financial statements.

#### *Audit Response*

We obtained an understanding of the Group's impairment assessment process and the related controls. We involved our internal specialist in evaluating the methodologies and the assumptions used and performed a recalculation of the value-in-use and EV/EBITDA multiples provided. For value-in-use, these assumptions include gross margins, revenue growth and discount rates. We compared the key assumptions used against the historical performance of the subsidiaries, industry or market outlook and other relevant external data. We tested the parameters used in determining the discount rate against market data. For EV/EBITDA, we assessed if the selected comparable entities obtained by the Group closely represent each cash generating unit to which the goodwill is allocated.

We also reviewed the Group's disclosures about the assumptions that have the most significant effect in determining the recoverable amounts of trademarks and goodwill.

#### **Other Information**

Management is responsible for the other information. The other information comprises the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2018, but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2018 are expected to be made available to us after the date of the auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

#### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Wenda Lynn M. Loyola.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

### **1. Corporate Information**

Robinsons Retail Holdings, Inc., (herein referred to as either “RRHI” or the “Parent Company”) is a stock corporation organized under the laws of the Philippines. The Parent Company was registered with the Philippine Securities and Exchange Commission (SEC) on February 4, 2002. The Parent Company’s common stock was listed with the Philippine Stock Exchange (PSE) on November 11, 2013, the Parent Company’s initial public offering (IPO).

The primary purpose of the Parent Company and its subsidiaries (herein referred to as “the Group”) is to engage in the business of trading goods, commodities and merchandise of any kind.

As of December 31, 2017, the Parent Company is 35.0% owned by JE Holdings, Inc., 34.85% owned by PCD Nominee Corporation and the rest by the public. As of December 31, 2018, the Parent Company is 30.90% owned by JE Holdings, Inc., 34.40% owned by PCD Nominee Corporation, 18.25% by Mulgrave Corporation B.V. (MCBV) and the rest by the public.

In November 2018, the Parent Company completed the acquisition of MCBV’s 100% stake in Rustan Supercenters, Inc. (RSCI) through a share for share swap involving 34,968,437 shares of RSCI in exchange for 191,489,360 primary common shares of the Parent Company or 12.15% interest. In addition, GCH Investments Pte. Ltd. (GCH) also acquired 96,219,950 shares or 6.10% interest in the enlarged share capital from the existing controlling shareholders of the Parent Company. MCBV and GCH are wholly-owned subsidiaries of Dairy Farm International Holdings, Ltd. (DF) Group of companies. After the transaction, DF through MCBV will have an 18.25% interest in the Parent Company (Notes 18 and 19).

The registered office address and principal place of business of the Parent Company is at 43rd Floor, Robinsons Equitable Tower, ADB Avenue corner Poveda Sts., Ortigas Center, Pasig City, Metro Manila.

---

### **2. Basis of Preparation**

#### Basis of Preparation

The consolidated financial statements have been prepared under the historical cost basis, except for financial assets at fair value through profit or loss (FVTPL), financial assets at fair value through other comprehensive income (FVOCI) and available-for-sale (AFS) financial assets, which are measured at fair value. The consolidated financial statements are presented in Philippine Peso (₱), the Parent Company’s functional and presentation currency. All amounts are rounded to the nearest peso unless otherwise indicated.

#### Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs).

#### Basis of Consolidation

The consolidated financial statements as of December 31, 2018 and 2017 and for each of the three (3) years in the period ended December 31, 2018 represent the consolidation of the financial statements of RRHI and the following subsidiaries directly and indirectly owned by the Parent Company.

All subsidiaries are incorporated in the Philippines and the functional currency is the Philippine Peso (₱) except for NDV Limited which is incorporated in British Virgin Islands (BVI) and the functional currency is US Dollar (\$).

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at December 31, 2018 and 2017. Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee if, and only if, the Parent Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Parent Company's voting rights and potential voting rights

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one (1) or more of the three (3) elements of control. Subsidiaries are consolidated from the date of acquisition, being the date on which the Parent Company obtains control, and continue to be consolidated until the date when such control ceases. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests (NCI), even if this results in the NCI having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full consolidation.

NCI represent the portion of profit or loss and net assets in subsidiaries not held by the Parent Company and are presented separately in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from the equity holders of the Parent Company.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. Any difference between the amount by which the NCI are adjusted and the fair value of the consideration paid or received is recognized directly in equity as "Equity reserve" and attributed to the owners of the Parent Company. If the Parent Company loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any NCI
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the Parent Company's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate.

#### *Additional Investments and Acquisitions*

On November 23, 2018, RRHI acquired 100.00% ownership in RSCI, a company engaged in the business of food retailing (Note 19).

On November 16, 2018, RRHI subscribed 40% ownership interest in Data Analytics Ventures, Inc. (DAVI) of which ₱0.40 million was paid. DAVI has not yet started commercial operations. DAVI's principal activities include processing, managing and analyzing data. Accordingly, the Group accounted the investment in DAVI under investment in associates (Note 13).

On September 20, 2018, RRHI made an investment in G2M Solutions Philippines Pte. Ltd. (G2M) amounting to ₱160.65 million through convertible note which will provide the RRHI 14.90% ownership interest upon conversion of the note. The terms of the agreement entitled the RRHI to one (1) out of three (3) board seats and participation to board key decisions. G2M is providing neighborhood sundry stores enablement platform and software in the Philippines. Accordingly, the Group accounted the investment in G2M under investment in associates (Note 13).

On August 28, 2018, Mitsubishi sold its entire ownership interest (12%) in RCSI to RI and Ministop; 161,052,632 shares to RI and 78,947,367 shares to Ministop. As a result of the transaction, RI's ownership interest to the RCSI increased from 51.0% to 59.05% while Ministop ownership increased from 36.9% to 40.9% (Note 18).

On August 16, 2018, RSC made an investment in GrowSari, Inc. (GrowSari) amounting to ₱105.00 million through convertible note which will provide the RSC 28.60% ownership interest upon conversion of the note. The terms of the agreement also provide technical information and entitled the RSC to two (2) out of seven (7) board seats and participation to board key decisions. GrowSari is engaged in selling wholesale goods to sari sari business owners. Accordingly, the Group accounted the investment in GrowSari under investment in associates (Note 13).

On July 12, 2018, RRHI made additional capital infusion to RBC amounting to ₱1.20 billion to meet the ₱15.0 billion minimum capital required by the Bangko Sentral ng Pilipinas for a bank to operate a network of over 100 branches (Note 13).

On February 27, 2018, RI and an NCI incorporated Super50, a company engaged in the business of retail and wholesale goods with paid-up capital amounting to ₱30.0 million. RI's ownership interest in Super50 is 51.0% (Note 18).

On February 22, 2018, RHMI incorporated RLSI, with a paid-up capital amounting to ₱50.00 million. RLSI is primarily engaged in the business of trading goods, commodities and merchandise of any kind.

On December 20, 2017, additional capital amounting ₱510.0 million to RCSI was made by RI. Corresponding additional investment coming from NCI of RCSI amounted to ₱490.0 million (Note 18).

On December 13, 2017, RRHI acquired 20% ownership in Taste Central Curators, Inc. (TCCI), operator of BeautyMNL, e-commerce site. Accordingly, the Group accounted the acquisition of TCCI using the equity method under investment in associates (Note 13).

On October 3, 2016, RI acquired 100% ownership of CCC, a company engaged in the business of manufacturing and distributing cosmetics products (Note 19). CCC is under common control. Accordingly, the Group accounted the business combination of CCC using the prospective pooling of interest method.

On August 1, 2016, RHIB acquired 75.0% ownership of HPTDI, a company engaged in the business of hardware retailing (Note 19). The NCI is measured based on the proportionate share in fair values of the net assets acquired amounting to ₱9.50 million.

On May 17, 2016, SSDI acquired 51.00% of ownership of TGPPI, a company engaged in the business of pharmaceutical (Note 19). The NCI is measured based on the proportionate share in fair values of the net assets acquired amounting to ₱942.17 million.

On February 11, 2016, RI made additional investments to RGFBI amounting to ₱100.0 million (Note 19).

On January 4, 2016, the Parent Company acquired 100% ownership of NDV Limited for the purpose of carrying on the business of investment holding (Note 19).

---

### 3. Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except that the Group applied for the first time certain pronouncements, which are effective for annual periods beginning on or after January 1, 2018. Adoption of these pronouncements did not have a significant impact on the Group's financial position or performance unless otherwise indicated.

- *Amendments to PFRS 2, Share-based Payment, Classification and Measurement of Share-based Payment Transactions*

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. Entities are required to apply the amendments to: (1) share-based payment transactions that are unvested or vested but unexercised as of January 1, 2018, (2) share-based payment transactions granted on or after January 1, 2018 and to (3) modifications of share-based payments that occurred on or after January 1, 2018. Retrospective application is permitted if elected for all three amendments and if it is possible to do so without hindsight.

These amendments do not have any impact on the Group's financial statements since the Group does not have share-based payment transactions.

- *PFRS 9, Financial Instruments*

PFRS 9, *Financial Instruments* replaces PAS 39, *Financial Instruments: Recognition and Measurement* for annual periods beginning on or after January 1, 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group applied PFRS 9 prospectively, with an initial application date of January 1, 2018. The Group has not restated the comparative information, which continues to be reported under PAS 39. The adoption of PFRS 9 did not have material impact on the financial statements.

The nature of these adjustments are described below:

*a. Classification and measurement*

Under PFRS 9, debt instruments are subsequently measured at FVTPL, amortized cost, or FVOCI. The classification is based on two criteria: the Group's business model for

managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' (SPPI) on the principal amount outstanding.

The assessment of the Group's business model was made as of the date of initial application, January 1, 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The classification and measurement requirements of PFRS 9 did not have a significant impact on the Group. The Group continued measuring at fair value all financial assets previously held at fair value under PAS 39. The following are the changes in the classification of the Group's financial assets:

- Trade receivables and other noncurrent financial assets (i.e., deposits) previously classified as loans and receivables are held to collect contractual cash flows and give rise to cash flows representing SPPI. These are now classified and measured as debt instruments at amortized cost.
- Quoted debt instruments previously classified as AFS financial assets are now classified and measured as debt instruments at FVOCI. The Group expects not only to hold the assets to collect contractual cash flows, but also to sell a significant amount on a relatively frequent basis. The Group's quoted debt instruments are corporate bonds that passed the SPPI test.
- Unsecured corporate notes previously classified as AFS financial assets are now classified and measured as FVTPL as these debt instruments have loss absorption feature, and did not pass the SPPI test.
- Listed equity investments previously classified as AFS financial assets are now classified and measured as equity instrument at FVOCI. The Group elected to classify irrevocably its listed equity investments under this category as it intends to hold these investments for the foreseeable future. There were no impairment losses recognized in profit or loss for these investments in prior periods.

There are no changes in classification and measurement of the Group's financial liabilities.

In summary, upon the adoption of PFRS 9, the Group had the following required or elected reclassifications:

PAS 39 measurement category	Amount	PFRS 9 measurement category		
		FVTPL	Amortized cost	FVOCI
<b>Loans and receivables</b>				
Cash and cash equivalents	₱13,271,954,850	₱-	₱13,271,954,850	₱-
Trade receivables	1,552,222,590	-	1,552,222,590	-
Nontrade receivables	487,405,602	-	487,405,602	-
Due from franchisees	305,376,530	-	305,376,530	-
Other noncurrent assets:				
Security and other deposits	1,530,655,795	-	1,530,655,795	-
Construction bonds	27,475,941	-	27,475,941	-
<b>AFS financial assets</b>				
Equity investments	2,104,000,000	-	-	2,104,000,000
Debt instruments	18,563,367,094	1,683,700,000	-	16,879,667,094
	₱37,842,458,402	₱1,683,700,000	₱17,175,091,308	₱18,983,667,094

*b. Impairment*

The adoption of PFRS 9 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing PAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach. PFRS 9 requires the Group to recognize an allowance for ECLs for all debt instruments not held at FVTPL and contract assets. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at the approximation on the asset's original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The adoption of PFRS 9 did not have a significant impact on the Group's impairment allowances on its debt instruments as of January 1, 2018 because:

- a. Cash and cash equivalents' credit grade, excluding cash on hand, is Grade A based on the Group's internal grading system which kept the probability of default at a minimum;
  - b. Receivables are all current;
  - c. Refundable deposits pertain to the amounts provided to lessors and utility service providers to be refunded upon termination of agreement. Effect of PFRS 9 impairment allowance is not material to the Group; and
  - d. Debt instruments at FVOCI comprise solely of quoted bonds that are graded in the top investment category by the Standard & Poor's (S&P) Global Rating and, therefore, are considered to be low credit risk investments.
- *Amendments to PFRS 4, Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the new insurance contracts standard. The amendments introduce two options for entities issuing insurance contracts: a temporary exemption from applying PFRS 9 and an overlay approach. The temporary exemption is first applied for reporting periods beginning on or after January 1, 2018. An entity may elect the overlay approach when it first applies PFRS 9 and apply that approach retrospectively to financial assets designated on transition to PFRS 9. The entity restates comparative information reflecting the overlay approach if, and only if, the entity restates comparative information when applying PFRS 9.

The amendments are not applicable to the Group since none of the entities within the Group have activities that are predominantly connected with insurance or issue insurance contracts.

- *PFRS 15, Revenue from Contracts with Customers*

PFRS 15 supersedes PAS 18, *Revenue* and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

PFRS 15 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the

costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Group adopted PFRS 15 using the modified retrospective method of adoption with the date of initial application of January 1, 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Group elected to apply the standard to all contracts as at January 1, 2018.

The cumulative effect of initially applying PFRS 15 is recognized at the date of initial application as an adjustment to the opening balance of retained earnings. Therefore, the comparative information was not restated and continues to be reported under PAS 18 and related Interpretations.

The effect of adopting PFRS 15 as of January 1, 2018 follows:

		As of December 31, 2017	Adjustments	As of January 1, 2018
<b>Assets</b>				
Contract asset	<i>a, c</i>	₱–	₱18,063,653	₱18,063,653
Deferred tax asset	<i>a</i>	355,166,249	28,580,690	383,746,939
<b>Liabilities</b>				
Contract liability	<i>a</i>	–	95,268,968	95,268,968
<b>Equity</b>				
Retained earnings	<i>a, c</i>	23,653,083,175	(52,923,184)	23,600,159,991
NCI	<i>a, c</i>	3,733,366,825	4,298,559	3,737,665,384

In accordance with the new revenue standard requirements, the disclosure of the impact of adoption on our consolidated statement of comprehensive income and consolidated statement of financial position follows:

Consolidated statement of comprehensive income

	For the year ended December 31, 2018		
	As reported	Balances without adoption of PFRS 15	Effect of change Higher (Lower)
	Sales	₱132,680,466,776	₱132,697,268,229
Less cost of merchandise sold	102,845,384,354	103,012,164,401	(166,780,047)
Gross profit	29,835,082,422	29,685,103,828	149,978,594
Other revenue	2,422,195,884	2,502,263,401	(80,067,517)
Gross profit including other revenue	32,257,278,306	32,187,367,229	69,911,077
Less operating expenses	25,631,402,164	25,622,938,504	8,463,660
Other income (charges)	971,282,830	971,282,830	–
Income before income tax	7,597,158,972	7,535,711,555	61,447,417
Less provision for income tax	1,772,021,548	1,748,546,887	23,474,661
Net income	₱5,825,137,424	₱5,787,164,668	₱37,972,756

Consolidated statement of financial position

	For the year ended December 31, 2018		
	As reported	Balances without adoption of PFRS 15	Effect of change Higher (Lower)
Deferred tax asset	₱413,459,629	₱408,353,600	₱5,106,029
Contract asset	1,262,200	–	1,262,200
Contract liability	197,899,218	180,879,120	17,020,098
Retained earnings	3,558,435,683	3,569,087,552	(10,651,869)

The change did not have a material impact on other comprehensive income and consolidated statement of cash flows for the period.

The nature of the adjustments as at January 1, 2018 pertains to the following:

*a. Franchise - non-refundable upfront fee*

The Group's franchise agreement includes payment of non-refundable upfront fee. Before the adoption of PFRS 15, the Group recognized the revenue on the non-refundable upfront fee upon execution of the franchise agreement and performance of initial services required under the franchise agreement. Under PFRS 15, the non-refundable upfront fee is amortized over the franchise period since there is a reasonable expectation that the Group will undertake activities that will significantly affect the brand name to which the franchisee has rights, and the franchisee is directly exposed to any positive or negative effects of that brand and image throughout the franchise period.

*b. Considerations received from suppliers under normal trade arrangements (e.g. slotting fees)*

Before the adoption of PFRS 15, the Group accounted for the slotting fees as separate obligation and recorded the considerations received as part of other revenues. Under PFRS 15, considerations received from the suppliers under normal trade agreements are treated as only one performance obligation and the considerations received are deducted to cost of merchandise sold. The adoption of PFRS 15 decreases the amount of cost of merchandise sold and other income but has no impact on retained earnings.

*c. Membership fee*

Before the adoption of PFRS 15, the Company recognized as outright revenue the membership fee for the sale of Robinsons Reward Card (RCC). Under PFRS 15, the membership fee is amortized over the membership period of two (2) years since cardholders receive the benefit to be eligible to earn points and use/redeem those points in the process over such period.

- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value* (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which

(a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. Retrospective application is required.

The amendments do not have impact on the Group's financial position or performance.

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. Retrospective application of the amendments is not required and is only permitted if this is possible without the use of hindsight.

The amendments are not applicable to the Group since the Group does not have investment property.

- Philippine Interpretation IFRIC-22, *Foreign Currency Transactions and Advance Consideration*

The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the date of the transaction for each payment or receipt of advance consideration. Retrospective application of this interpretation is not required.

Since the Group's current practice is in line with the clarifications issued, the Group does not expect any effect on its consolidated financial statements upon adoption of this interpretation.

#### Standards Issued But Not Yet Effective

Pronouncements issued but not yet effective are listed on the next page. Unless otherwise indicated, the Group does not expect the future adoption of the said pronouncements to have a significant impact on its financial statements. The Group intends to adopt the following pronouncements when they become effective.

#### *Effective beginning on or after January 1, 2019*

- PFRS 9, *Prepayment Features with Negative Compensation* (Amendments)

Under PFRS 9, a debt instrument can be measured at amortized cost or at FVOCI, provided that the contractual cash flows are the SPPI criterion and the instrument is held within the appropriate business model for that classification. The amendments to PFRS 9 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. The amendments should be applied retrospectively and are effective from January 1, 2019, with earlier application permitted. These amendments have no impact on the Group's financial statements.

- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today's accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17.

A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs.

The Group is currently assessing the impact of adopting PFRS 16.

- Amendments to PAS 19, *Employee Benefits, Plan Amendment, Curtailment or Settlement*

The amendments to PAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event
- Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments also clarify that an entity first determines any past service cost, or a gain or loss on settlement, without considering the effect of the asset ceiling. This amount is recognized in profit or loss. An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognized in OCI.

The amendments apply to plan amendments, curtailments, or settlements occurring on or after the beginning of the first annual reporting period that begins on or after January 1, 2019, with early application permitted. These amendments will apply only to any future plan amendments, curtailments, or settlements of the Group.

- PAS 28, *Long-term Interests in Associates and Joint Ventures* (Amendments)

The amendments clarify that an entity applies PFRS 9 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long-term interests). This clarification is relevant because it implies that the expected credit loss model in PFRS 9 applies to such long-term interests.

The amendments also clarified that, in applying PFRS 9, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognized as adjustments to the net investment in the associate or joint venture that arise from applying PAS 28, *Investments in Associates and Joint Ventures*.

The amendments should be applied retrospectively and are effective from January 1, 2019, with early application permitted. The Group is currently assessing the impact of adopting the amendments.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*, and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

This interpretation is not relevant to the Group because there is no uncertainty involved in the tax treatments made by management in connection with the calculation of current and deferred taxes as of December 31, 2018 and 2017.

- *Annual Improvements to PFRSs 2015-2017 Cycle*

- Amendments to PFRS 3, *Business Combinations*, and PFRS 11, *Joint Arrangements, Previously Held Interest in a Joint Operation*

The amendments clarify that, when an entity obtains control of a business that is a joint operation, it applies the requirements for a business combination achieved in stages, including remeasuring previously held interests in the assets and liabilities of the joint operation at fair value. In doing so, the acquirer remeasures its entire previously held interest in the joint operation.

A party that participates in, but does not have joint control of, a joint operation might obtain joint control of the joint operation in which the activity of the joint operation constitutes a business as defined in PFRS 3. The amendments clarify that the previously held interests in that joint operation are not remeasured.

An entity applies those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2019 and to transactions in which it obtains joint control on or after the beginning of the first annual reporting period beginning on or after January 1, 2019, with early application permitted. These amendments are currently not applicable to the Group but may apply to future transactions.

- Amendments to PAS 12, *Income Tax Consequences of Payments on Financial Instruments Classified as Equity*

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognizes the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application is permitted. These amendments are not relevant to the Group.

- Amendments to PAS 23, *Borrowing Costs, Borrowing Costs Eligible for Capitalization*

The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete.

An entity applies those amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application permitted. These amendments are not relevant to the Group.

*Effective Beginning on or after January 1, 2020*

- Amendments to PFRS 3, *Definition of a Business*

The amendments to PFRS 3 clarify the minimum requirements to be a business, remove the assessment of a market participant's ability to replace missing elements, and narrow the definition of outputs. The amendments also add guidance to assess whether an acquired process is substantive and add illustrative examples. An optional fair value concentration test is introduced which permits a simplified assessment of whether an acquired set of activities and assets is not a business.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted. These amendments are currently not applicable to the Group but may apply to future transactions.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments refine the definition of material in PAS 1 and align the definitions used across PFRSs and other pronouncements. They are intended to improve the understanding of the existing requirements rather than to significantly impact an entity's materiality judgements.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

*Effective Beginning on or after January 1, 2021*

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

PFRS 17 is effective for reporting periods beginning on or after January 1, 2021, with comparative figures required. Early application is permitted.

The amendments will have no significant impact on the Group's financial position or performance.

### *Deferred Effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The amendments will have no significant impact on the Group's financial position or performance.

---

## 4. Summary of Significant Accounting Policies

### **Revenue Recognition Effective January 1, 2018**

#### Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods. The Group concluded that it is acting as principal in all its revenue arrangements. The Group recognized revenue from the following major sources:

- Sale of goods to retail customers, including the related loyalty programme and warranties granted under local legislation. Sale of goods include food, beverage, grocery items, fashion items (e.g. shoes, bags, clothing, cosmetics), household items, home improvement products, consumer electronics and appliances, toys, and prescription and over-the-counter pharmaceutical products;
- Sale of merchandise to franchisees;
- Franchise revenue under Ministop and TGP franchise agreements;
- Royalty fees

#### *Sale of Goods - Retail Customers*

The Group sells goods directly to customers both through its own retail outlets and through internet sales in partnership with major e-commerce players in the country.

For sale of goods through retail outlets revenue is recognized when the control of the goods has transferred to the customer, being at the point the customer purchases the goods at the retail outlet. Payment of the transaction price is due immediately at the point the customer purchases the goods.

For internet sales, revenue is recognized when control of the goods has transferred to the customer, being at the point the goods are delivered to the customer. Delivery occurs when the goods have been shipped to the customer's specific location.

Under the Group's standard contract terms for sale to retail customers (from both retail outlet and internet sales), customers have a right of return within seven (7) days. The right of return entitles the customer to exchange the product bought for another product of the same type, quality, condition and price (for example, one color or size for another). The right of return is not a separate performance obligation.

#### *Sale of Goods - Wholesale Market*

The Group also sell goods in the wholesale market. Sales are recognized when control of the products has transferred, being when the products are delivered to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the group has objective evidence that all criteria for acceptance have been satisfied.

The sale of goods to the wholesale market often includes volume discounts based on current purchases. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. No element of financing is deemed present as the sales are made with a credit term of 30 days, which is consistent with market practice.

A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### *Sale of Loyalty Points and Gift Checks*

The Group operates a loyalty programme where retail customers accumulate points for purchases made at any participating retail outlets and partner establishments that can be redeemed against any future purchases at any participating retail outlets and partner establishments, subject to a minimum number of points obtained. The Group also sells gift checks which can be used to redeem goods.

The Group allocates a portion of the consideration received to loyalty points and gift checks. This allocation is based on the relative stand-alone selling prices. The stand-alone selling price is estimated based on the equivalent value given when the points and gift checks are redeemed by the customer and the likelihood of redemption, as evidenced by the Group's historical experience. The amount allocated to the items is deferred and is recognized as revenue when redeemed or the likelihood of the customer redeeming becomes remote. The deferred revenue is included in contract liabilities.

#### *Sale of Merchandise - Franchisees*

For sale of merchandise to franchisees, revenue is recognized when control of the goods has transferred to the franchisees, being at the point the goods are delivered to the franchisees. Delivery occurs when the goods have been shipped to the franchisee's specific location.

#### *Franchise Revenue*

The Group's franchise agreement includes payment of non-refundable upfront fee. The revenue from non-refundable upfront fees is recognized on a straight-line basis over the period the franchisee has access to the license (the term of the franchise agreement). Continuing franchise fees in exchange for the franchise right granted over the term of the franchise agreement are recognized as revenue when the subsequent sale of merchandise by the franchisees occurs.

### Contract Balances

#### *Receivables*

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### *Contract Liabilities*

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognizes revenue when it transfers control of a product or service to a customer.

### **Revenue Recognition Prior to January 1, 2018**

Revenue is recognized to the extent that it is probable that the economic benefits associated with the transaction will flow to the Group and the amount can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts and other sales taxes.

The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Group has concluded that it is acting as principal in all of its revenue agreements. The following specific recognition criteria must also be met before revenue is recognized:

#### *Sale of Goods*

Sales are recognized from retail customers at the point of sale in the stores. Sales returns and sales discounts are deducted from the sales to arrive at the net sales shown in the consolidated statement of comprehensive income.

### **Accounting Policies Effective from and prior to January 1, 2018**

#### Royalty Fee

Royalty fee is recognized as a percentage of gross profit earned by the franchisee.

#### Rental Income

Rental income is accounted for on a straight line basis over the lease term.

#### Interest Income

Interest on cash in bank, cash equivalents, debt financial assets at FVOCI and FVTPL and AFS financial assets is recognized as the interest accrues using the effective interest rate (EIR) method.

#### Dividend Income

Dividend income is recognized when the Group's right to receive the payment is established.

#### Cost of Merchandise Sold

Cost of merchandise sold includes the purchase price of the products sold, as well as costs that are directly attributable in bringing the merchandise to its intended condition and location. Vendor returns, allowances and consideration received under normal trade arrangements are generally deducted from cost of merchandise sold.

### Operating Expenses

Operating expenses constitute costs of administering the business. These are recognized as expenses when it is probable that a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has occurred and the decrease in economic benefits can be measured reliably.

## **Financial Instruments - Initial Recognition and Subsequent Measurement Effective January 1, 2018**

### Financial Assets

The Group recognizes a financial asset in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument.

#### *Initial Recognition and Measurement*

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI, and FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a FVTPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PFRS 15.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

#### *Subsequent Measurement*

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- FVOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at FVTPL

*Financial Assets at Amortized Cost (Debt Instruments).* The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the EIR method and are subject to impairment. Gains and losses are recognized in the consolidated statement of comprehensive income when the asset is derecognized, modified or impaired.

As of December 31, 2018, the Group's financial assets at amortized cost includes cash and cash equivalents, trade receivables and refundable security deposits included under 'other noncurrent assets'.

*FVOCI (Debt Instruments).* The Group measures debt instruments at FVOCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at FVOCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the consolidated statement of comprehensive income and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI in the consolidated statement of comprehensive income. Upon derecognition, the cumulative fair value change recognized in other comprehensive income is recycled to profit or loss in the consolidated statement of comprehensive income.

As of December 31, 2018, the Group's debt instruments at FVOCI includes investments in quoted debt instruments.

*Financial Assets Designated at FVOCI (Equity Instruments).* Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation and Disclosure* are not held for trading. The classification is determined on an instrument-by instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the consolidated statement of comprehensive income when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group elected to classify irrevocably its listed equity investments under this category.

*Financial Assets at FVTPL.* Financial assets at FVTPL include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not SPPI are classified and measured at FVTPL, irrespective of the business model.

Financial assets at FVTPL are carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in profit or loss in the consolidated statement of comprehensive income.

As of December 31, 2018, the Group's financial assets at FVTPL includes investments in debt instruments which contain loss absorption feature.

### *Impairment of Financial Assets*

The Group recognizes an allowance for ECLs for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The ECL allowance is based on the credit losses expected to arise on a 12-month duration if there has been no significant increase in credit risk of the financial asset since origination (12-month ECL). Otherwise if a significant increase in credit risk is observed, then the ECL estimation is extended until the end of the life of the financial asset (Lifetime ECL). The 12-month ECL represents the losses that result from default events on a financial asset which may happen within 12 months after the reporting date. The Lifetime ECL on the other hand represents the losses that result from default events on a financial asset which may happen over its life. Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

Financial instruments subject to the ECL methodology are categorized into three stages:

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk since initial recognition. Entities are required to recognize 12-month ECL for stage 1 financial instruments. In assessing whether credit risk has increased significantly, entities are required to compare the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a significant increase in credit risk since initial recognition. Entities are required to recognize lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then entities shall revert to recognizing 12-month ECL.
- Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a financial instrument or a portfolio of financial instruments. The ECL model requires that lifetime ECL be recognized for impaired financial instruments, which is similar to the requirements under PAS 39 for impaired financial instruments.

A default is considered to have occurred when (a) there is a breach of financial covenants by the counterparty; or (b) information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group). Irrespective of the analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

At each reporting date, the Group shall assess whether the credit risk on a loan or credit exposure has increased significantly since initial recognition. Group's assessment of significant increase in credit risk involves looking at quantitative element and qualitative element. The quantitative element is being looked through statistical models or credit ratings process or scoring process that captures certain information which the Group shall consider as relevant in assessing changes in credit risk.

The Group may also look at the number of notches downgrade of credit risk rating or certain thresholds for the probabilities of default being generated from statistical models to determine whether significant increase in credit risk has occurred subsequent to initial recognition date.

Credit exposures shall be transferred from Stage 1 to Stage 2 if there is significant increase in credit risk from initial recognition date. Exposures shall be classified as Stage 2 if (a) the exposure have potential weaknesses, based on current and/or forward-looking information, that warrant management's close attention. Said weaknesses, if left uncorrected, may affect the repayment of these exposures; (b) If there are adverse or foreseen adverse economic or market conditions that may affect the counterparty's ability to meet the scheduled repayments in the future.

Exposures shall be transferred from Stage 3 (non-performing) to Stage 1 (performing) when there is sufficient evidence to support their full collection. Such exposures should exhibit both the quantitative and qualitative indicators of probable collection prior to their transfer. Quantitative indicator is characterized by payments made within an observation period. Qualitative indicator pertains to the results of assessment of the borrower's financial capacity.

ECLs are generally measured based on the risk of default over one of two different time horizons, depending on whether there has been significant increase in credit risk since initial recognition. ECL calculations are based on the following components:

- Probability-of-default (PD) - an estimate of the likelihood that a borrower will default on its obligations over the next 12 months for Stage 1 or over the remaining life of the credit exposure for Stages 2 and 3.
- Loss-given-default (LGD) - an estimate of the loss arising in case where defaults occur at a given time. It is based on the difference between the contractual cash flow due and those that the Group would expect to receive, including from any collateral.
- Exposure-at-default (EAD) - an estimate of the exposure at a future/default date taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, expected drawdown on committed facilities and accrued interest from missed payments.

Forward-looking information shall be considered in estimating/determining the 12-month and lifetime PD, LGD and EAD depending on the credit exposure.

ECL measurement is determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions. Experienced credit judgment is essential in assessing the soundness of forward-looking information and in ensuring that these are adequately supported. Forward-looking macroeconomic information and scenarios shall consider factors that may affect the general economic or market conditions in which the Group operates.

For trade receivables and contract assets, the Group applies the simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted by forward-looking factors specific to the debtors and economic environment.

For debt instruments at FVOCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk

using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the internal credit rating of the debt instrument.

The Group's debt instruments at FVOCI comprise solely of quoted bonds that are graded in the top investment category by the S&P and, therefore, are considered to be low credit risk investments. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses the ratings from the S&P both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

For other debt financial instruments e.g., cash and cash equivalents and security deposits ECLs the Company applies the general approach. Therefore, the Group track changes in credit risk at every reporting date.

### **Financial Instruments - Initial Recognition and Subsequent Measurement Prior to January 1, 2018**

#### Financial Assets

The Group recognizes a financial asset in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place are recognized on the settlement date.

#### *Initial Recognition*

Financial instruments are recognized initially at the fair value of the consideration given. Except for financial instruments at fair value through profit or loss (FVTPL), the initial measurement of financial assets includes transaction costs. The Group classifies its financial assets into the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, AFS financial assets and loans and receivables.

The classification depends on the purpose for which the investments were acquired and whether they are quoted in an active market. Management determines the classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

As of December 31, 2017, the financial instruments of the Group are classified as AFS financial assets, loans and receivables, and other financial liabilities.

#### *Subsequent Measurement*

The subsequent measurement of financial assets and financial liabilities depend on their classification as follows:

*AFS Financial Asset.* AFS financial assets are those which are designated as such and are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value. However, AFS financial assets in unquoted debt securities whose fair values cannot be reliably measured are carried at cost, less any impairment loss. The effective yield component of AFS debt securities, as well as the impact of translation on foreign currency-denominated AFS debt securities, is reported in the consolidated statement of comprehensive income. The unrealized gains and losses arising from the fair valuation of AFS financial assets and the impact of translation on foreign currency-

denominated AFS debt instruments are reported as part of OCI in the equity section of the consolidated statement of comprehensive income.

When the security is disposed of, the cumulative gain or loss previously recognized is recognized in profit or loss in the other comprehensive income. Where the Group holds more than one investment in the same security, these are deemed to be disposed of on a first-in first-out basis. Interest earned on holding AFS financial assets are reported as interest income using effective interest rate (EIR). Dividends earned on holding AFS financial assets are recognized in profit or loss in the consolidated statement of comprehensive income. The losses arising from impairment of such investments are recognized in profit or loss in the consolidated statement of comprehensive income.

As of December 31, 2017, this accounting policy relates primarily to the Group's investments in equity and debt securities (Note 11).

*Loans and Receivables.* Loans and receivables are non-derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. These are not entered into with the intention of immediate or short-term resale and are not designated as AFS financial assets or financial assets at FVPL.

After initial measurement, loans and receivables are measured at amortized cost using the effective interest method, less allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR.

As of December 31, 2017, this accounting policy relates primarily to the Group's cash and cash equivalents, trade and other receivables, security deposits and construction bonds.

#### *Impairment of Financial Assets*

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

*AFS Financial Assets.* The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of debt instruments classified as AFS investments, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Interest continues to be accrued at the original EIR on the reduced carrying amount of the asset and is recorded under interest income in profit or loss. If, in a subsequent year, the fair value of a debt instrument increases, and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is also reversed through profit or loss in the consolidated statement of comprehensive income.

In case of equity investments classified as AFS financial assets, this would include a significant or prolonged decline in the fair value of the investments below its cost. Where there is evidence of impairment, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the consolidated statement of comprehensive income, is removed from OCI and recognized in the profit or loss in the consolidated statement of comprehensive income.

Impairment losses on equity investments are not reversed through profit or loss in the consolidated statement of comprehensive income. Increases in fair value after impairment are recognized directly as part of other OCI in the consolidated statement of comprehensive income.

*Loans and Receivables.* For loans and receivables carried at amortized cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment for impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged to the consolidated statement of comprehensive income. Interest income continues to be recognized based on the original EIR of the asset. Loans and receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the consolidated statement of comprehensive income, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of such credit risk characteristics as the borrower's payment history, past-due status and term.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any difference between loss estimates and actual loss experience.

### **Financial Instruments - Initial Recognition and Subsequent Measurement Prior to and After January 1, 2018**

#### Financial Liabilities

##### *Initial Recognition*

Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL and other financial liabilities at amortized cost. The initial measurement of financial liabilities, except for designated at FVPL, includes transaction costs.

As of December 31, 2018 and 2017, the financial liabilities of the Group are classified as other financial liabilities.

### *Subsequent Measurement*

The measurement of financial liabilities depends on their classification, as described below:

*Other Financial Liabilities.* After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the statement of comprehensive income when the liabilities are derecognized as well as through amortization process.

This accounting policy relates primarily to the Group's trade and other payables and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable and retirement obligation).

### Offsetting of Financial Assets and Liabilities

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

### Derecognition of Financial Assets and Liabilities

#### *Financial Asset*

A financial asset (or, where applicable a part of a financial asset or part of a Group of similar financial assets) is derecognized where:

- the right to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a pass-through' arrangement; or
- the Group has transferred its right to receive cash flows from the asset and either; (a) has transferred substantially all the risks and rewards of the asset; or (b) has neither transferred nor retained the risk and rewards of the asset but has transferred the control of the asset.

Where the Group has transferred its right to receive cash flows from an asset but has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### *Financial Liability*

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of comprehensive income.

### Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is

based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

#### Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three (3) months or less from dates of placement and are subject to an insignificant risk of change in value.

#### Merchandise Inventories

Merchandise inventories are stated at the lower of cost and net realizable value (NRV). Cost is determined using the moving average method. Costs comprise of purchase price, including duties, transport and handling costs, and other incidental expenses incurred in bringing the merchandise inventory to its present location and condition.

NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale. In the event that NRV is lower than cost, the decline shall be recognized as an expense in the consolidated statement of comprehensive income.

### Investment in Associates

Associates are entities in which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of investee, but is not control or joint control over those policies. Investment in associates is accounted for under the equity method of accounting.

Under the equity method, the investment in associates is carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share in the net assets of the associates, less any impairment in value. The profit or loss reflects the share of the results of the operations of the associates reflected a "Equity in net earnings of associates" under "Other income (charges)" in the consolidated statement of comprehensive income. Goodwill relating to associate is included in the carrying amount of the investment and is not amortized. The Group's share in the investees' post acquisition movements in the investees' equity reserves is recognized directly in equity. Profit and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associate and for unrealized losses to the extent that there is no evidence of impairment of the assets transferred. Dividends received are treated as a reduction of the carrying value of the investment.

The Group discontinues applying the equity method when the investment associates is reduced to zero (0). Accordingly, additional losses are not recognized unless the Group has guaranteed certain obligations of the associates. When the associates subsequently report net income, the Group will resume applying the equity method but only after its share of that net income equals the share of net losses not recognized during the period the equity method was suspended.

The reporting dates of the associates and the Group are identical and associate's accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

After application of the equity method, the Group determines whether it is necessary to recognize an additional impairment loss on the Group's investment in associates. The Group determines at each reporting date whether there is any objective evidence that the investment in associates is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associates and its carrying value and recognizes the amount under "Other expenses" in the consolidated statement of comprehensive income.

Upon loss of significant influence over the associates, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associates upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in the consolidated statement of comprehensive income.

### Business Combination and Goodwill

If the initial accounting for a business combination can be determined only provisionally by the end of the period in which the combination is effected because either the fair values to be assigned to the acquiree's identifiable assets, liabilities or contingent liabilities or the cost of the combination can be determined only provisionally, the Group accounts for the combination using those provisional values. The Group recognizes any adjustments to those provisional values as a result of completing the initial accounting within twelve (12) months of the acquisition date as follows: (i) the carrying amount of the identifiable asset, liability or contingent liability that is recognized or adjusted as a result of completing the initial accounting shall be calculated as if its fair value at the acquisition date had been recognized from that date; (ii) goodwill or any gain recognized shall be adjusted by an amount equal to the adjustment to the fair value at the acquisition date of the identifiable asset, liability or contingent liability being recognized or adjusted; and (iii) comparative information presented for the periods before the initial accounting for the combination is complete shall be presented as if the initial accounting has been completed from the acquisition date.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the Group will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with PFRS 9 either in profit or loss or as a change to OCI. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss as bargain purchase gain.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. For purposes of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating unit (CGUs), or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is allocated should:

- represent the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- not be larger than an operating segment determined in accordance with PFRS 8, *Operating Segments*.

Impairment is determined by assessing the recoverable amount of the CGU (or group of CGUs), to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in these circumstances is measured based on the relative values of the operation disposed of and the portion of the CGU retained. If the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the acquirer shall recognize immediately in the consolidated statement of comprehensive income any excess remaining after reassessment.

#### Combination of Entities under Common Control

Business combinations under common control are those in which all of the combining entities or businesses are controlled by the same party or parties both before and after the business combination, and that control is not transitory. Business combinations are accounted for using the acquisition

method except for business combinations under common control in which an accounting similar to pooling of interest method accounted for prospectively from the acquisition date as allowed under PIC Q&A 2012-01. Under the prospective pooling of interest method, the assets and liabilities of the combining entities are reflected at their carrying amounts. No adjustments are made to reflect fair values, or recognize any new assets and liabilities, at the date of the combination. No new goodwill is recognized. The adjustments made, if any, are only to the extent to harmonize accounting policies within the Group. The difference between the book value of net asset acquired and the consideration paid or transferred is recognized in equity, under "Equity reserve". The profit and loss of the acquirees are consolidated from the acquisition date. Comparative periods are not restated.

#### Property and Equipment

Property and equipment, except land are carried at cost less accumulated depreciation and amortization and accumulated impairment in value, if any. Land is carried at cost less any impairment in value. The initial cost of property and equipment comprises its purchase price, including any directly attributable costs of bringing the asset to its working condition and location for its intended use. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

Construction in-progress (CIP) are transferred to the related "Property and equipment" account when the construction or installation and related activities necessary to prepare the property and equipment for their intended use are completed, and the property and equipment are ready for service. CIP is not depreciated until such time when the relevant assets are completed and available for use. Depreciation and amortization is computed using the straight-line method over the estimated useful lives (EUL) of the assets. Leasehold improvements are amortized over the EUL of the improvements or the term of the related lease, whichever is shorter.

The EUL of property and equipment in general are as follow:

	Years
Building and other equipment	20 - 25
Leasehold improvements	6 - 10
Store furniture and fixtures	5 - 10
Office furniture and fixtures	5 - 10
Transportation equipment	5 - 10
Computer equipment	3 - 10

The assets' useful lives and the depreciation and amortization method are reviewed periodically to ensure that the period and the method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated statement of comprehensive income in the period the item is derecognized.

The assets' residual values, useful lives and methods of depreciation and amortization are reviewed and adjusted, if appropriate, at each financial year-end.

Fully depreciated and amortized property and equipment are maintained in the accounts until these are no longer in use.

#### Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the EUL and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of comprehensive income as the expense category that is consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the CGU level. The assessment of indefinite useful life is reviewed annually to determine whether the indefinite useful life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

#### *Licenses*

The Group acquired the license to use the brand and operate its stores. The license shall be amortized using the straight-line method over a period of ten (10) years. The amortization of the license is recorded in the consolidated statement of comprehensive income under “Operating expenses” account.

#### *Trademarks*

Trademarks, which were acquired through business combinations in 2012 (SSDI), 2015 (SEWI), 2016 (TGPPI) and 2018 (RSCI) were recognized at fair value at the date of acquisition and assessed to have indefinite useful lives. Following initial recognition, the trademarks are carried at cost and subject to annual impairment testing.

#### *Franchise*

The Group acquired the franchise to use the brand and operate its stores. The franchise shall be amortized using the straight-line method over a period of ten (10) years. The amortization of the franchise is recorded in the consolidated statements of comprehensive income under “Operating expenses” account.

#### Impairment of Nonfinancial Assets

This accounting policy primarily applies to the Group’s property and equipment, investment in associates and intangible assets.

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or CGU’s fair value less costs to sell, and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated

future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly-traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognized in the consolidated statement of comprehensive income in the expense category consistent with the function of the impaired asset, except for property previously revalued where the revaluation was taken to equity. In this case the impairment is also recognized in equity up to the amount of any previous revaluation.

For nonfinancial assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group makes an estimate of recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of comprehensive income.

The following criteria are also applied in assessing impairment of specific assets:

#### *Investment in Associates*

After application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group's net investment in associates. The Group determines at each reporting date whether there is any objective evidence that the investment in associates is impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the recoverable amount and the carrying value of the investment in associates and recognizes the difference in the consolidated statement of comprehensive income.

#### *Impairment Testing of Goodwill and Trademarks*

Goodwill and trademarks are reviewed for impairment, annually or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired.

The Group performed its annual impairment test for the years ended December 31, 2018 and 2017. The CGU are concluded to be the entire entities acquired by the Group. The impairment testing may be performed at any time in the annual reporting period, but it must be performed at the same time every year and when circumstances indicate that the carrying amount is impaired. The impairment testing also requires an estimation of the recoverable amount, which is the net selling price or value-in-use of the CGU to which the goodwill and intangibles are allocated.

The most recent detailed calculation made in a preceding period of the recoverable amount of the CGU may be used for the impairment testing for the current period provided that:

- The assets and liabilities making up the CGU have not changed significantly from the most recent calculation;
- The most recent recoverable amount calculation resulted in an amount that exceeded the carrying amount of the CGU by a significant margin; and
- The likelihood that a current recoverable amount calculation would be less than the carrying amount of the CGU is remote based on an analysis of events that have occurred and circumstances that have changed since the most recent recoverable amount calculation.

Impairment is determined for goodwill and trademarks by assessing the recoverable amount of the CGU (or group of CGU) to which the goodwill and trademarks relate. Where the recoverable amount of the CGU (or group of CGU) is less than the carrying amount of the CGU (or group of CGU) to which goodwill and trademarks have been allocated, an impairment loss is recognized immediately in the consolidated statement of comprehensive income. Impairment loss recognized for goodwill and trademarks shall not be reversed in future periods.

#### Retirement Cost

##### *Defined Benefit Plan*

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting date reduced by the fair value of plan assets, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- (a) service cost;
- (b) net interest on the net defined benefit liability or asset; and
- (c) remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss in the consolidated statement of comprehensive income. Past service costs are recognized when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss in the consolidated statement of comprehensive income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in the consolidated statement of comprehensive income subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

### Value-Added Taxes (VAT)

Input tax represents the VAT paid on purchases of goods and services that the Group can apply against any future liability for output VAT on sale of goods and services subjected to VAT. The input VAT can also be recovered as tax credit under certain circumstances and can be applied against future income tax liability of the Group upon approval of the BIR. Input VAT is stated at its estimated NRV. Output VAT pertains to the 12.0% tax due on the local sale of goods by the Group.

If at the end of any taxable month, the output VAT exceeds the input VAT, the outstanding balance is included under "Trade and other payables" account. If the input VAT exceeds the output VAT, the excess shall be carried over to the succeeding months and included under "Other current assets".

### Creditable Withholding Taxes (CWT)

CWT included under other current assets are attributable to taxes withheld by third parties arising from the sale of goods, rental fees and other services and will be applied against future taxes payable.

### Income Tax

#### *Current Tax*

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

#### *Deferred Tax*

Deferred tax is provided, using the balance sheet liability method, on all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward of unused tax credits from excess MCIT and NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the consolidated statement of comprehensive income is recognized outside the consolidated statement of comprehensive income. Deferred tax items are recognized in correlation to the underlying transaction either in the consolidated statement of comprehensive income or other comprehensive income.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### Capital Stock

Capital stock is measured at par value for all shares issued. When the Group issues shares in excess of par, the excess is recognized as additional paid-in capital (APIC) (Note 18). Incremental costs incurred directly attributable to the issuance of new shares are treated as deduction from APIC. If APIC is not sufficient, the excess is charged against retained earnings.

### Equity Reserve

Equity reserve consist of equity transactions other than capital contributions, such as equity transactions arising from transactions with NCI and combination or entities under common control.

### Retained Earnings

Retained earnings represent accumulated earnings of the Group less dividends declared and any adjustment arising from application of new accounting standards, policies or correction of errors applied retroactively. It includes the accumulated equity in undistributed earnings of consolidated subsidiaries which are not available for dividends until declared by subsidiaries. Appropriated retained earnings are those that are restricted for store expansion. Unappropriated retained earnings are those that can be allocated for specific purposes and can be distributed as dividend (Note 18).

### Leases

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

A reassessment is made after inception of the lease, only if one of the following applies:

- a) there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b) a renewal option is exercised or extension granted, unless the term of the renewal or extension;
- c) there is a change in the determination of whether fulfillment is dependent on a specified asset; or
- d) there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c) or (d) and at the date of renewal or extension period for scenario (b).

### *Group as Lessee*

Leases where the lessor does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. Operating lease payments are recognized as an expense in the consolidated statement of comprehensive income on a straight-line basis over the lease term.

### *Group as Lessor*

Leases where the Group does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as the rental income. Contingent rents are recognized as revenue in the period in which they are earned.

### Foreign Currency Transactions

Transactions in foreign currencies are initially recorded in the Group's functional currency using the exchange rates prevailing at the dates of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency using the Bankers Association of the Philippines (BAP) and Philippine Dealing Exchange Corporation (PDEx) closing rate prevailing at the reporting date in 2018 and 2017, respectively. Exchange gains or losses arising from foreign exchange transactions are credited to or charged against operations for the period.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the prevailing closing exchange rate as of the date of initial transaction.

Financial statements of consolidated foreign subsidiaries which are considered foreign entities are translated into the presentation currency of the Parent Company (Peso) at the closing exchange rate at end of reporting period and their statements of income are translated using the monthly weighted average exchange rates for the year. The exchange differences arising from the translation are taken directly to a separate component of equity (under cumulative translation adjustment). On disposal of a foreign entity, the deferred cumulative amount recognized in equity relating to that particular foreign operation is recognized in the consolidated statement of comprehensive income.

#### Earnings Per Share (EPS)

Basic EPS is computed by dividing net income for the year applicable to common stock by the weighted average number of common shares issued and outstanding during the year, adjusted for any subsequent stock dividends declared.

Diluted EPS is calculated by dividing the net income for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

The calculation of diluted EPS does not assume conversion, exercise, or other issue of potential common shares that would have an antidilutive effect on EPS.

The Parent Company does not have any potential dilutive ordinary shares for the years ended December 31, 2018, 2017 and 2016 (Note 26).

#### Provisions

Provisions are recognized only when the following conditions are met: (a) there exists a present obligation (legal or constructive) as a result of a past event; (b) it is probable (i.e., more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense in profit or loss. Provisions are reviewed at each reporting period and adjusted to reflect the current best estimate.

#### Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

#### Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM, who is responsible for resource allocation and assessing performance of the operating segment, has been identified as the President. The nature of the operating segment is set out in Note 6.

#### Events After the Reporting Date

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are non-adjusting events are disclosed in the consolidated financial statements when material.

---

### 5. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in conformity with PFRSs requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from such estimates.

#### Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations which have the most significant effect on the amounts recognized in the consolidated financial statements:

##### *Operating Lease Commitments - Group as Lessee*

The Group, having the ability to terminate the lease term, has entered into cancellable lease agreements as a lessee. The Group evaluates whether a lease contract is cancellable or noncancelable by assessing penalties on pretermination of lease contract. Penalties considered by the Group are not limited to those that are imposed by the contract but also include possible payment to third parties and loss of future earnings. The amount and timing of recorded rent expenses would differ if the Group determines lease contracts as noncancelable. Also, the Group has determined that it has not retained all the significant risks and rewards of ownership of the leased property.

##### *Right to Access - Performance Obligation Satisfied Over Time (Upon Adoption of PFRS 15)*

The Group considered the following in assessing whether the non-refundable upfront franchise fee is a right to access the Ministop and TGP licenses: (a) the franchisee reasonably expects that the entity will undertake activities that will significantly affect the license to which the customer has rights (i.e. the characters); (b) the rights granted by the franchise agreement directly expose the franchisee to any positive or negative effects of the Group's activities because the franchise agreement requires the customer to use the latest characters; and (c) even though the franchisees may benefit from those activities through the rights granted by the franchise agreement, they do not transfer a good or service to the customer as those activities occur.

The Group concludes that non-refundable upfront franchise fee is a payment to provide the franchisees with access to the Ministop and TGP licenses as it exists throughout the franchise period. Consequently, the entity accounts for the upfront franchise fee as a performance obligation satisfied over time.

*Determination if Consideration Received from Suppliers is Not Distinct*

The Group in the ordinary course of business received consideration from suppliers for product placements (e.g. slotting fees) and other programs. The Group determines that the consideration received from the suppliers is not in exchange for a distinct good or service that transfers to the supplier because of the following considerations:

- the standalone selling price of the good or service for which the consideration is received cannot be reasonably estimated; and
- the supplier does not obtain control of the goods or service.

*Accounting for Investment in GrowSari and G2M through Convertible Note*

The Group has investments in GrowSari, Inc. and G2M Solutions Philippines Pte. Ltd. through convertible note which will provide the Group 28.60% and 14.90% ownership interest, respectively, upon conversion of the note. The Group assessed that it has significant influence as evidenced by provision of technical information, board seats and service agreement in the term sheet. Thus, the investments are accounted for as investments in associates.

*Determination of Control*

The Group determined that it has control over its investees by considering, among others, its power over the investee, exposure or rights to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect its returns.

The following were also considered:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual agreements; and
- The Group's voting rights and potential voting rights.

*Recognition of Insurance Recovery*

The Group has recognized insurance recovery from its business interruption claim. For the amount recognized, the Group has determined that the likelihood of receiving insurance recovery is virtually certain and its recognition in the period is appropriate considering the following:

- There is a valid insurance policy for the incident;
- The advanced status of the Group's discussion with the adjuster and insurers regarding the claim; and
- The subsequent information that conform the status of the claim as of the reporting date.

*Contingencies*

The Group is currently involved in certain legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the Group's financial position and results of operations. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings (Note 31).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*Recoverability of Goodwill and Trademarks*

In the course of the Group's business combinations, goodwill and trademarks were acquired (Note 14). These assets have indefinite useful lives.

The Group performed its annual impairment test as at December 31, 2018 and 2017. The recoverable amounts of the CGUs have been determined based on value in use (VIU) and enterprise value or earnings before interest, taxes, depreciation and amortization (EV/EBITDA) multiple calculations.

As of December 31, 2018 and 2017, below are the business segments from which trademarks arise:

	Basis	Amount
SSDI	VIU	₱1,566,917,532
TGPPI	VIU	1,264,098,435
SEWI	VIU	364,914,493
		₱3,195,930,460

As of December 31, 2018 and 2017, below are the business segments from which goodwill arise:

	Basis	Amount
TGPPI	EV/EBITDA	₱1,281,428,830
SSDI	EV/EBITDA	745,887,131
SEWI	VIU	715,103,869
EC	EV/EBITDA	199,870,222
RHIB	VIU	145,655,320
RTSHPI	EV/EBITDA	85,161,468
Beauty Skininnovations Retail, Inc. (BSRI)	VIU	83,324,691
JRMC	EV/EBITDA	71,732,435
HPTDI	VIU	30,000,000
GPC	EV/EBITDA	23,250,000
		₱3,381,413,966

Value In Use

The recoverable amount of each CGU has been determined based on a value in use calculation using cash flow projections from financial budgets approved by senior management covering a five-year period. The projected cash flows have been updated to reflect the demand for products and services.

The pre-tax discount rate applied to cash flow projections in 9.70% in 2018 (10.70% in 2017) and cash flows beyond the five-year period are extrapolated using a 5.00% to 10.00% in 2018 growth rate (5.00% to 10.00% in 2017) that is the same as the long-term average growth rate for the respective industries. As a result of this analysis, management concluded that the goodwill and trademarks are not impaired.

The calculation of value in use of the CGUs is most sensitive to the following assumptions:

- Gross margins
- Discount rate
- Price inflation
- Growth rates used to extrapolate cash flows beyond the forecast period

#### *Gross Margins*

Gross margins are based on average values achieved in one (1) to five (5) years preceding the beginning of the budget period. These are increased over the budget period for anticipated efficiency improvements. An increase of 7.00% to 12.00% per annum was applied. A decreased demand can lead to a decline in gross margin. A decrease in gross margin from 20.80% to 2.80% for 2018 and 11.50% to 5.00% for 2017 would result in impairment.

#### *Discount Rates*

Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate. A rise in pre-tax discount rate of 2.40% to 20.20% and 8.00% to 12.00%, in 2018 and 2017, respectively, would result in impairment.

#### *Price Inflation*

Forecast price inflation which impacts the forecast for operating expenses lies within a range of 3.00% to 5.00% in 2018 and 2017. If price increases greater than the forecast price inflation and the Group is unable to pass on or absorb these increases through efficiency improvements, then the Group will have to recognize an impairment.

#### *Growth Rate Estimates*

Rates are based on published industry research. A reduction to 3.00% in the long-term growth rate would result in impairment.

#### *EV/EBITDA Multiple*

The Group utilized the use of EV/EBITDA multiple in the impairment testing of its goodwill from the acquisitions of some of its subsidiaries wherein the Group obtained and selected comparable entities which closely represent each entity from which goodwill was acquired. The characteristics taken into account include, among others, the geographical area where the comparable resides, nature of business or operations of the comparable entities and economic environment from which the comparable entities operate.

As such, the Group has selected EV/EBITDA multiples limited to retail entities in the Philippines as the management of the Group believes that these entities reasonably represent each acquired entity after carefully taking into account the future viability of the assumptions used and ability of each entity to attain such position in the future as it relates to the overall growth in the industry and in the country.

In 2018 and 2017, the Group used the EV/EBITDA multiple ranging from 10 to 15 multiples for impairment testing of goodwill and concluded and satisfied that goodwill from the acquired entities are not impaired.

If such EV/EBITDA multiple used falls lower than 4.45 multiple, goodwill will be impaired.

*Provision for ECL of Trade and Other Receivables (Applicable Beginning January 1, 2018)*

The Group uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group calibrated the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Provision for expected credit losses in 2018 amounted to ₱46.75 million. As of December 31, 2018, allowance for expected credit losses on trade and other receivables amounted to ₱156.35 million.

As of December 31, 2018, the carrying value of the Group's trade and other receivables amounted to ₱3.17 billion (Note 8).

*Allowance for Impairment Losses on Trade and Other Receivables (Applicable Prior to January 1, 2018)*

The Group maintains allowance for impairment losses at levels considered adequate to provide for potential uncollectible receivables. The levels of this allowance are evaluated by management on the basis of factors that affect the collectability of the accounts. These factors include, but are not limited to, the length of the Group's relationship with the debtor, the debtor's payment behavior and known market factors. The Group reviews the age and status of receivables, and identifies accounts that are to be provided with allowance on a continuous basis. The Group provides full allowance for receivables that it deems uncollectible.

The amount and timing of recorded expenses for any period would differ if the Group made different judgment or utilized different estimates. An increase in the allowance for impairment losses would increase the recorded operating expenses and decrease the current assets.

Provision for impairment loss on receivables in 2017 and 2016 amounted to ₱21.51 million and ₱58.83 million, respectively. Allowance for impairment losses on trade and other receivables amounted to ₱110.39 million and ₱88.87 million in 2017 and 2016, respectively.

As of December 31, 2017, the carrying value of the Group's trade and other receivables amounted to ₱2.23 billion (Note 8).

*Estimating NRV of Merchandise Inventories*

The Group carries merchandise inventory at NRV whenever the utility of it becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels, losses or other causes. The estimate of the NRV is reviewed regularly.

Estimates of NRV are based on the most reliable evidence available at the time the estimates are made on the amount the inventories are expected to be realized. These estimates take into consideration fluctuations of price or cost directly relating to events occurring after reporting date to the extent that such events confirm conditions existing at reporting date.

Provision for inventory obsolescence amounted to ₱59.50 million in 2018 and nil in 2017 and 2016.

Merchandise inventories amounted to ₱18.63 billion and ₱14.85 billion as of December 31, 2018 and 2017, respectively (Note 9).

#### *Evaluation of Impairment of Nonfinancial Assets*

The Group reviews property and equipment, investment in associates and intangible assets with definite lives for impairment of value.

The Group estimates the recoverable amount as the higher of the fair value less cost to sell and value in use. In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Group is required to make estimates and assumptions that may affect property and equipment, investment in associates and intangible assets.

The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five (5) years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

Based on management assessment as of December 31, 2018 and 2017, there are no additional impairment provision required for property and equipment other than those already recorded in the books while there are none for investment in associates. In 2018, the Group recognized impairment on assets amounting to ₱117.23 million (Notes 14 and 15). No impairment was recognized in 2017 and 2016.

As of December 31, 2018 and 2017, the carrying value of the Group's property and equipment amounted to ₱19,269.21 million and ₱13,601.39 million, respectively (Note 12), investment in associates amounted to ₱6,814.30 million and ₱5,271.53 million, respectively (Note 13), licenses amounted to nil and ₱60.61 million, respectively, and franchise amounted to ₱24.13 million and ₱19.28 million, respectively (Note 14).

#### *Retirement and Other Benefits*

The determination of the obligation and cost of retirement and other benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 23, and include, among others, discount rate and salary rates increase.

As of December 31, 2018, the carrying value of the retirement plan amounted to ₱91.25 million asset and ₱325.46 million obligation. As of December 31, 2017 the carrying value of the retirement plan amounted to nil asset and ₱546.19 million obligation.

#### *Deferred Tax Assets*

The Group reviews the carrying amounts of deferred taxes at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Management has determined based on business forecast of succeeding years that there is enough taxable income against which recognized deferred tax assets will be realized.

As of December 31, 2018, and 2017, the Group has deferred tax assets amounting ₱413.46 million and ₱355.17 million, respectively (Note 25). Unrecognized deferred tax assets amounted to ₱100.67 million and ₱47.94 million as of December 31, 2018 and 2017, respectively.

*Determining Whether the Loyalty Points and Gift Checks Provide Material Rights to Customers  
(Upon Adoption of PFRS 15)*

The Company has a loyalty points program which allows customers to accumulate points that can be redeemed for future purchases at any of the Group's retail outlets and participating stores, subject to a minimum number of points obtained. The loyalty points give rise to a separate performance obligation as they provide a material right to the customer. The transaction price is allocated to the product and the points on a relative stand-alone selling price basis. Management estimates the stand-alone selling price per point on the basis of the discount granted when the points are redeemed and on the basis of the likelihood of redemption, based on past experience. The Group also has gift checks which can be redeemed for future purchases at any of the Group's retail outlets.

As of December 31, 2018, contract liabilities arising from customer loyalty program and gift checks amounted to ₱197.90 million (Note 16).

*Revenue Recognition - Points for Loyalty Programme (applicable prior to January 1, 2018)*

The Group estimates the fair value of points awarded under the Robinsons Rewards Card programme by determining the equivalent peso earned for a particular level of points. These points expire after a specified period and the Group has adjusted its liability for the estimated portion that will not be redeemed, such estimates are subject to significant uncertainty. As of December 31, 2017, the estimated liability for unredeemed points was approximately ₱133.64 million.

---

## 6. Operating Segments

### Business Segment

The business segment is determined as the primary segment reporting format as the Group's risks and rates of return are affected predominantly by each operating segment.

Management monitors the operating results of its operating segments separately for the purpose of making decision about resource allocation and performance assessment. Group financing (including interest income, dividend income and interest expense) and income taxes are managed on a group basis and are not allocated to operating segments. The Group evaluates performance based on earnings before interest and taxes, and earnings before interest and taxes, depreciation and amortization. The Group does not report its results based on geographical segments because the Group operates only in the Philippines.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Cost and expenses exclude interest, taxes, depreciation and amortization.

The amount of segment assets and liabilities are based on the measurement principles that are similar with those used in measuring the assets and liabilities in the consolidated statement of financial position which is in accordance with PFRSs.

The Group derives its revenue from the following reportable units:

- *Supermarket Division*

Robinsons Supermarket is a major supermarket chain in the country that focuses on health and wellness. It also offers fresh food products at competitive prices. RSC actively encourages consumers to adopt a healthy lifestyle by providing a wide range of high quality health and wellness products. Such products are given a specifically allocated section within each of the

supermarkets and are made highly visible to consumers. In 2018, the Group acquired RSCI which also operates supermarket chains in the country.

- *Department Store Division*

Robinsons Department Store (RDS) offers a large selection of local and international brands that are grouped into categories such as shoes, bags and accessories (including beauty and personal care), ladies' and men's wear, children's wear, household items and others. RDS is focused on catering to middle-income customers.

- *Do-It-Yourself (DIY) Division*

The five (5) DIY brands Handyman Do it Best, True Value, True Home, Robinsons Builders and Home Plus have grown to have a reputation of quality and dependability in the Philippine retail market, as well as being aggressive in terms of expansion among mall and big box hardware and home improvement centers in the country. The DIY segment aims to cover the Philippine landscape with more branches in key commercial centers to promote self-reliance among do-it yourselfers, as well as offer a wide selection of construction materials for contractors and builders.

- *Convenience Store Division*

Ministop is a 24 - hour convenience store chain and is a franchise of Ministop Co. Ltd. - Japan (Ministop), one (1) of the largest convenience store chains in Japan. The store carries a wide assortment of merchandise and an extensive selection of ready to eat products.

- *Drug Store Division*

The Drug Store segment primarily offers high quality pharmaceutical drugs, which constitutes to over a thousand reputable branded and affordable options including The Generics Pharmacy house brands for the generic medicines. The segment's other major product categories are staged milk and non-pharmaceutical selections, which include a vast array personal care items, food and beverage, and other convenience store grocery items.

- *Specialty Store Division*

The Specialty Store format is the lifestyle arm of the Group. It is committed to bringing a diverse spectrum of products and services to the Philippine market, including some of the best loved international lifestyle brands in top entertainment systems, coffee shops, unparalleled selections of toys and games; and well-known global fast fashion brands, local and international cosmetics, a wide selection of nail care products, and innovative slush and fruit juice mixes.

The revenue of the Group consists mainly of sales to external customers through its retail and internet channels. Inter-segment revenue arising from purchase arrangements amounting ₱1.57 billion, ₱1.34 billion and ₱1.14 billion in 2018, 2017 and 2016, respectively, were eliminated on consolidation.

No operating segments have been aggregated to form the above reportable segments.

Capital expenditures consist of additions to property and equipment arising from current acquisitions and those acquired through business combinations plus any adjustments made in the fair values of the acquired property and equipment.

The Group has no significant customer which contributed to 10.00% or more to the revenue of the Group.

## 7. Cash and Cash Equivalents

This account consists of cash on hand and in banks and cash equivalents amounting to ₱14.79 billion and ₱14.57 billion as of December 31, 2018, and 2017, respectively.

Cash in banks earns interest at the respective bank deposit rates. Cash equivalents are made for varying periods of one (1) to three (3) months, depending on the immediate cash requirements of the Group, and earn annual interest at the respective short-term investment rates that ranges from 0.90% to 5.52%, 0.09% to 3.50% and 0.88% to 2.50% in 2018, 2017 and 2016, respectively.

Interest income arising from cash in banks and cash equivalents amounted to ₱193.64 million, ₱107.55 million and ₱73.04 million in 2018, 2017 and 2016, respectively.

## 8. Trade and Other Receivables

This account consists of:

	2018	2017
Trade (Notes 24 and 27)	<b>₱2,108,620,270</b>	₱1,552,222,590
Nontrade (Notes 24 and 27)	<b>734,264,185</b>	487,405,602
Due from franchisees (Notes 27 and 29)	<b>485,057,897</b>	305,376,530
	<b>3,327,942,352</b>	2,345,004,722
Less allowance for impairment losses (Notes 27 and 29)	<b>156,346,848</b>	110,387,770
	<b>₱3,171,595,504</b>	₱2,234,616,952

Trade receivables are noninterest-bearing and are generally on a one (1) to thirty (30) days' term.

Nontrade receivables include receivable from insurance companies amounting to ₱145.97 million and ₱82.12 million as of December 31, 2018, and 2017, respectively. The remaining balance consists of operational advances and interest receivable arising from short-term investments.

Movement in the allowance for impairment losses is as follows:

	2018	2017
Balance at beginning of year	₱110,387,770	₱88,873,605
Provision for impairment losses (Note 21)	46,748,194	21,514,165
Less write off	789,116	-
<b>Balance at end of year</b>	<b>₱156,346,848</b>	<b>₱110,387,770</b>

## 9. Merchandise Inventories

The rollforward analysis of this account follows:

	2018	2017
Balance at beginning of year	₱14,846,561,020	₱13,341,684,985
Acquisition through business combination	3,073,734,206	-
Add purchases - net of purchase discounts and allowances	103,596,280,274	90,950,955,973
Cost of goods available for sale	121,516,575,500	104,292,640,958
Less cost of merchandise sold	102,845,384,354	89,446,079,938
Allowance for inventory obsolescence	43,177,218	-
<b>Balance at end of year</b>	<b>₱18,628,013,928</b>	<b>₱14,846,561,020</b>

The cost of merchandise inventories charged to the consolidated statements of comprehensive income amounted to ₱102.85 billion, ₱89.45 billion and ₱82.27 billion in 2018, 2017 and 2016, respectively.

Movements in the allowance for shrinkage, obsolescence and other losses for the year ended December 31, 2018 follows:

Provisions during the year (Note 21)	₱59,503,049
Less write off	16,325,831
<b>Balance at end of year</b>	<b>₱43,177,218</b>

There are no merchandise inventories pledged as security for liabilities as of December 31, 2018 and 2017.

## 10. Other Current Assets

This account consists of:

	2018	2017
Input VAT - net	₱2,246,748,776	₱1,995,567,759
Prepayments	490,482,729	123,428,852
Creditable withholding tax	410,508,668	304,021,431
Others	11,920,917	676,741
<b>Balance at end of year</b>	<b>₱3,159,661,090</b>	<b>₱2,423,694,783</b>

Input VAT will be applied against output VAT in the succeeding periods.

Prepayments consist of advance payments for rental, taxes and utilities.

CWT will be applied against income tax payable in future periods.

Others consist mainly of excess payments of income taxes.

## 11. Debt and Equity Instrument Financial Assets

The Group's debt and equity instrument financial assets classified as FVOCI and FVTPL which are carried at fair value as of December 31, 2018 follows:

Debt securities		
FVOCI with recycling	(a)	₱16,135,895,711
FVTPL	(b)	1,665,171,011
		17,801,066,722
Equity securities at FVOCI without recycling		1,950,400,000
		₱19,751,466,722

The Group's debt and equity instruments classified as AFS financial assets which are carried at fair value as of December 31, 2017 follows:

Debt securities	(a, b)	₱18,563,367,094
Equity securities		2,104,000,000
		₱20,667,367,094

### Debt Securities

- a. The Group's debt securities consist of Peso and Dollar-denominated bond securities with fixed coupon rate per annum ranging from 4.38% to 7.88% and term of five (5) to ten (10) years.

Rollforward analysis of debt securities as of December 31, 2018 and 2017 follows:

	2018	2017
	<b>Financial Assets at FVOCI with Recycling</b>	AFS Financial Assets
Amortized cost:		
At beginning of year	₱16,593,843,811	₱16,329,074,285
Additions	847,021,924	408,551,798
Disposals	(756,249,689)	(145,401,710)

At end of year	16,817,785,321	16,593,843,811
Amortization of premium on debt securities	(75,423,505)	(43,452,040)
Change in fair value of financial assets:		
At beginning of year	329,275,323	332,803,656
Changes in fair value recognized in OCI	(965,569,116)	(2,823,208)
Transfer to profit or loss	42,958,438	(705,125)
Allowance for expected credit losses	(13,130,750)	-
At end of year	(606,466,105)	329,275,323
	₱16,135,895,711	₱16,879,667,094

- b. The Group's debt securities pertain to Metrobank Basel III Tier 2 Notes and BDO Tier 2 Notes with fixed interest rate of 5.38% and 5.19%, respectively. The notes will mature on June 27, 2024 and March 10, 2020, respectively.

	2018	2017
	<b>Financial Assets at FVTPL</b>	AFS Financial Assets
At beginning of year	<b>₱1,683,700,000</b>	₱1,683,700,000
Changes in fair value recognized in profit or loss	<b>(18,528,989)</b>	-
	<b>₱1,665,171,011</b>	₱1,683,700,000

In 2018, 2017 and 2016, the Group recognized loss on disposal of debt instrument financial assets amounting to ₱21.59 million, ₱4.24 million and nil, respectively.

Interest income arising from debt instrument financial assets amounted to ₱788.22 million, ₱765.88 million and ₱754.23 million in 2018, 2017 and 2016, respectively.

Accretion of interest pertains to the amortization of interest income resulting from the difference of the carrying value and face value of debt instrument financial assets.

#### Equity Securities

Quoted equity securities pertain to investment in stock listed in the PSE. The Group elected to classify irrevocably its listed equity investments under FVOCI in 2018 as it intends to hold these investments for the foreseeable future.

Rollforward analysis of equity securities for the years ended December 31, 2018 and 2017 follows:

	2018	2017
	<b>Financial Assets at FVOCI without Recycling</b>	AFS Financial Assets
Cost	<b>₱2,000,000,000</b>	₱2,000,000,000
Change in fair value of equity instrument financial assets:		
At beginning of year	<b>104,000,000</b>	120,000,000
Changes in fair value	<b>(153,600,000)</b>	(16,000,000)
At end of year	<b>(49,600,000)</b>	104,000,000
	<b>₱1,950,400,000</b>	₱2,104,000,000

Dividend income earned by the Group amounted to ₱111.50 million in 2018, 2017 and 2016.

Fair value changes on debt and equity instrument financial assets attributable to the equity holders of the Parent Company follow:

	2018	2017
Balances at the beginning of year	<b>₱433,980,448</b>	₱452,803,656
Change in fair value during the year - OCI	<b>(1,119,169,116)</b>	(18,118,083)
Transfers to profit or loss	<b>42,958,438</b>	(705,125)
Balances at the end of year	<b>(₱642,230,230)</b>	₱433,980,448

	<b>₱6,591,363,481</b>	₱3,195,930,460

In 2018, amortization related to trademarks acquired through acquisition of RSCI amounted to ₱3.17 million.

*Licenses*

Acquisition of trademark by RSSI to secure a franchise/license

On September 21, 2012, RSSI acquired a local trademark registered in the Philippine Intellectual Property Rights Office which is similar to a known international mark for ₱121.21 million. Due to such acquisition, RSSI was able to secure a franchise/license to exclusively use the similar known international mark in the Philippines. The franchise/license agreement is for an initial period of five (5) years which can be renewed for another five (5) years upon mutual agreement of the parties. Amortization amounted to ₱12.12 million in 2018, 2017 and 2016 (Note 21). In 2018, RSSI impaired the remaining value of the license amounting to ₱48.48 million due to debranding.

The rollforward analysis of this account follows:

	2018	2017
Beginning balance	<b>₱60,606,062</b>	₱72,727,274
Less amortization and impairment (Note 21)	<b>60,606,062</b>	12,121,212
	<b>₱-</b>	₱60,606,062

*Franchise*

On July 29, 2014, Costa International Limited granted the Group the development and operating rights to carry on the Costa business in the Philippines. The development agreement includes a development fee, 60.00% of which is payable upon execution of the agreement and the remaining 40.00% is payable one (1) year after the date of the agreement, and a service fee equal to a certain percentage of sales. As of December 31, 2018 and 2017, the Group has franchise amounting to ₱16.73 million and ₱19.28 million, respectively.

On January 10, 2018, Pet Lovers Centre International Pte. Ltd, granted the Group the right to develop its business including its trademarks, system, manuals and image in the Philippines for ₱7.58 million. The Group started Pet Lovers Centre operations in October 2018. The franchise shall be amortized using straight-line method over a period of ten (10) years.

The rollforward analysis of the franchise follows:

	2018	2017
Beginning balance	₱19,279,385	₱21,826,729
Addition	7,583,430	-
Amortization (Note 21)	(2,736,930)	(2,547,344)
	<b>₱24,125,885</b>	<b>₱19,279,385</b>

---

**15. Other Noncurrent Assets**

This account consists of:

	2018	2017
Security and other deposits	₱2,550,724,180	₱1,530,655,795
Construction bonds	33,092,201	27,475,941
	<b>₱2,583,816,381</b>	<b>₱1,558,131,736</b>

Security and other deposits mainly consist of advances for the lease of stores which are refundable at the end of the lease term.

In 2018, the Group impaired other noncurrent assets amounting to ₱68.75 million.

---

**16. Trade and Other Payables**

This account consists of:

	2018	2017
Trade	₱17,130,764,045	₱12,732,104,629
Nontrade (Note 24)	6,537,222,971	4,613,052,013
Others	909,123,439	429,078,340
	<b>₱24,577,110,455</b>	<b>₱17,774,234,982</b>

Trade payables are noninterest-bearing and are normally settled on forty-five (45) to sixty (60) in days' term arising mainly from purchases of merchandise inventories for resale.

Nontrade payables consist mainly of liabilities/obligations payable to nontrade suppliers and due to related parties.

Others mainly consist of taxes and licenses payable.

Contract Liabilities

The Group identified its gift check outstanding, accrued customer loyalty rewards and deferred revenue, recorded under trade payables, as contract liabilities as of December 31, 2018. These represent the Group's obligation to provide goods or services to the customers for which the Group has received consideration from the customers.

Gift check outstanding	₱140,165,250
Accrued customer loyalty reward	40,713,870
Deferred revenue	17,020,098
	<u>₱197,899,218</u>

Below is the rollforward of contract liabilities from the date of initial application of the adoption of PFRS 15 in 2018:

At January 1	₱-
Reclassification from deferred revenue upon adoption of PFRS 15	275,042,623
Deferred during the year	848,807,808
Recognized as revenue during the year	(925,951,213)
At December 31	<u>₱197,899,218</u>

The comparative information has not been presented as it continues to be reported under the accounting standards in effect for those periods.

**17. Short-term Loans Payable**

Details of short-term loans follow:

	2018	2017
Balance at beginning of year	₱6,377,954,863	₱6,575,698,733
Additions through business combination (Note 19)	1,500,000,000	-
Availments	7,508,045,137	3,724,954,863
Payments	(8,592,000,000)	(3,922,698,733)
	<u>₱6,794,000,000</u>	<u>₱6,377,954,863</u>

	<b>₱6,794,000,000</b>	<b>₱6,377,954,863</b>

- a.) SSDI's short-term loans payable consist of loans availed from local commercial banks at interest rates of 5.10%-5.50% per annum. In 2018 and 2017, SSDI availed short-term loans amounting to ₱100.00 million and ₱325.0 million, respectively. In addition, SSDI paid ₱135.0 million and ₱427.70 million of the outstanding loan balance in 2018 and 2017, respectively. The short-term loans payable of SSDI as of December 31, 2018 and 2017 amounted to ₱2.18 billion and ₱2.22 billion, respectively.
- b.) In 2018, RSCI's short-term loans payable consist of loans availed from a local commercial bank at interest rates 5.50%-5.95% per annum. The loans were obtained to finance RSCI's working capital requirements. Short-term loans payable acquired through acquisition amounting to ₱1.50 billion and availed ₱0.25 billion during the year.
- c.) RI's short-term loans payable consist of loans availed from a local commercial bank at an interest rates of 5.50%-5.55% per annum. These loans are renewable before the end of each lease term at the option of RI. In 2018 and 2017, RI availed short-term loan amounting to ₱3.34 billion and ₱0.79.0 billion, respectively. In addition, RI paid ₱3.41 billion and ₱1.23 billion on the outstanding loan balance in 2018 and 2017, respectively. The loans were obtained to support the working capital requirements of RI. The short-term loans payable as of December 31, 2018 and 2017 amounted to ₱1.35 billion and ₱1.42 billion, respectively.
- d.) In 2018, RRHI's short-term loans payable consist of a loan availed from a local commercial bank amounting to ₱1.05 billion at an interest rates of 4.35%-5.55% per annum. The loans were obtained to support the working capital requirements of RRHI.
- e.) RHDDS's short-term loans payable consist of a loan availed from a local commercial bank at an interest rates of 5.50%-6.50% per annum. In 2018 and 2017, RHDDS availed short-term loan amounting ₱145.0 million and ₱100.0 million, respectively. In addition, RHDDS paid ₱155.0 million and ₱170.0 million on the outstanding loan balance in 2018 and 2017. The short-term loans payable as of December 31, 2018 and 2017 amounted to ₱220.0 million and ₱230.0 million, respectively.
- f.) RGFBI's short-term loans payable consists of loans availed from a local commercial bank at an interest rates of 5.75%-6.50% per annum. In 2018 and 2017, RGFBI availed short-term loans amounting to ₱420.05 million and ₱86.95 million, respectively. In 2018 and 2017, RGFBI paid ₱317.0 million and nil, respectively. The short-term loans payable of RGFBI as of December 31, 2018 and 2017 amounted to ₱190.0 million and ₱86.95 million, respectively.
- g.) HPTD paid outstanding short-term loan amounting to ₱8.0 million during the year. The short-term loans payable as of December 31, 2018 and 2017 amounted to ₱50.0 million and ₱58.0 million, respectively.
- h.) RSC's short-term loans payable consists of loans availed from local commercial banks at an interest rate of 5.30% per annum which are renewable every three (3) months. In 2018 and

2017, RSC availed short-term loans amounting to ₱2.20 billion and ₱2.21 billion, respectively. In addition, RSC paid ₱4.41 billion and ₱1.03 billion in 2018 and 2017, respectively. The short-term loans payable of RSC as of December 31, 2018 and 2017 amounted to nil and ₱2.21 billion, respectively.

- i.) RAC's short-term loans payable consists of a loan availed from a local commercial bank at an interest rates of 3.15%-3.28% per annum. In 2018 and 2017, RAC availed short-term loan amounting to nil and ₱100.00 million, respectively. In 2018 and 2017, RAC paid ₱100.0 million and ₱290.0 million of the outstanding loan balance. The loans payable as of December 31, 2018 and 2017 amounted to nil and ₱100.0 million, respectively.
- j.) RHIB's short-term loans payable consists of loans availed from a local commercial bank at an interest rate of 3.10%-4.00% per annum. In 2017, RHIB availed short-term loan amounting to ₱60.0 million. The short-term loan was fully settled in 2018.

Total interest expense charged to operations amounted to ₱159.07 million, ₱127.38 million and ₱86.53 million in 2018, 2017 and 2016, respectively.

The above loans are not subject to any loan covenants.

---

## 18. Equity

### *Capital Stock*

The details of this account follow:

	2018		2017		2016	
	Amount	No. of shares	Amount	No. of shares	Amount	No. of shares

Authorized shares	₱2,000,000,000	2,000,000,000	₱2,000,000,000	2,000,000,000	₱2,000,000,000	2,000,000,000
Issued shares	1,576,489,360	1,576,489,360	1,385,000,000	1,385,000,000	1,385,000,000	1,385,000,000

### Registration Track Record

On November 11, 2013, the Parent Company listed with the Philippine Stock Exchange its common stock wherein it offered 484,750,000 shares to the public at ₱58.00 per share. All shares were sold. Of the total shares sold, 18,871,950 shares were subsequently reacquired by the Parent Company at ₱58.00 per share or an aggregate cost of ₱1,094.57 million. The Parent Company incurred transaction costs incidental to the IPO amounting ₱745.65 million, charged against "Additional paid-in capital".

On December 9, 2014, the Parent Company sold its treasury shares at ₱69.00 per share or ₱1,309.06 million, incurring transaction costs amounting to ₱8.22 million.

On November 23, 2018, the Parent Company issued 191,489,360 new common shares for the acquisition of RSCI (Notes 1 and 19). The market value of the share amounted to ₱72.05 per share on November 23, 2018. Transaction cost related to the issuance of new shares amounted to ₱64.50 million.

Equity Reserve

Details of equity reserve follow:

	2018	2017	2016
Acquisition of additional shares from non-controlling interest			
Beginning	(₱1,027,402,846)	(₱1,027,402,846)	(₱1,027,402,846)
Additions	51,459,308	-	-
	(975,943,538)	(1,027,402,846)	1,027,402,846
Acquisition of subsidiary under common control			
	5,508,177	5,508,177	5,508,177
	(₱970,435,361)	(₱1,021,894,669)	(₱1,021,894,669)

*Acquisition of a Subsidiary under Common Control*

On October 3, 2016, RI acquired 28,800 common shares, representing 100% ownership of Chic Centre Corporation for a total consideration of ₱27.80 million. Net assets of Chic Centre Corporation at the date of acquisition amounted to ₱33.34 million. As a result of the combination of the entities, the difference between the consideration paid for the acquisition and the net assets acquired amounting to ₱5.51 million is accounted for as “Equity reserve”.

*Acquisition of Additional Shares from a Non-Controlling Shareholder*

On August 28, 2018, RI acquired additional 161,052,632 common shares, representing 8.05% of RCSI from a non-controlling shareholder for ₱85.36 million. As a result of the acquisition, RI then holds 59.05% interest in RCSI. The Group recognized equity reserve from the acquisition amounting to ₱51.46 million included in “Equity reserve” representing the excess of carrying amount of the non-controlling interest acquired over consideration paid.

On December 5, 2014, RSC acquired additional 2,500,000 common shares, representing 25%, of RHMI from a non-controlling shareholder for ₱1.45 billion. As a result of the acquisition, RSC then holds 80% interest in RHMI.

The Group recognized equity reserve from the acquisition amounting to ₱1.02 billion included in “Equity reserve” in the consolidated statements of changes in equity representing the excess of consideration paid over the carrying amount of the non-controlling interest acquired. The equity reserve from the acquisition will only be recycled to the consolidated statements of comprehensive income in the event that RSC will lose its control over RHMI.

In 2015, the total consideration was adjusted from ₱1.45 billion to ₱1.48 billion. The difference is recognized as an adjustment to equity reserve. Of the total amount, ₱1.31 billion was received and settled in 2014. The remaining balance was fully settled in cash in 2015.

*Retained Earnings*

The income of the subsidiaries and accumulated equity in net income of the associates that are recognized in the consolidated statements of comprehensive income are not available for dividend declaration unless these are declared by the subsidiaries and associates. The accumulated earnings of subsidiaries included in retained earnings amounted to ₱27.71 billion and ₱23.65 billion as of December 31, 2018 and 2017, respectively, while the accumulated equity in net income of the associates amounted to ₱943.42 million and ₱834.96 million as of December 31, 2018 and 2017, respectively (Note 13).

ASI	December 12	20,000,000
SSDI	December 12	20,000,000
<b>Total</b>		<b>₱2,432,000,000</b>

In 2016, the Group paid ₱207.0 million dividends declared in 2015.

#### NCI

##### *Acquisitions of NCI from Business Combinations*

In May 2016, the Group has acquired NCI through business combination on the acquisition of TGPPI amounting to ₱942.17 million.

In 2016 and 2015, the Group has acquired NCI through business combinations on the acquisition of HPTDI and SEWI amounting ₱9.50 million and ₱30.54 million, respectively.

##### *Investment from NCI*

On February 27, 2018, an NCI made an investment which represents 49% ownership in Super50 Corporation amounting to ₱14.70 million.

On December 20, 2017, the BOD of RCSI authorized the increase of capital stock from ₱1.0 billion to ₱2.0 billion of which to ₱490.0 million was subscribed and paid in full by Ministop.

In 2016, no additional investment was recognized from NCI.

##### *Dividends to NCI*

In 2018, 2017 and 2016, dividends declared attributable to NCI amounted to ₱266.84 million, ₱357.80 million and ₱310.84 million, respectively.

### Capital Management

The primary objective of the Group's capital management policy is to ensure that it maintains healthy capital in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for the years ended December 31, 2018 and 2017.

The Group considers the following as its main source of capital:

	2018	2017
Capital stock	₱1,576,489,360	₱1,385,000,000
Additional paid-in capital	40,768,202,897	27,227,385,090
Other comprehensive income (loss)	(563,817,037)	289,698,663

Total equity attributable to equity holders of the		
Parent Company	68,520,728,389	51,533,272,259
Non-controlling interest in consolidated subsidiaries	4,183,439,610	3,733,366,825
<b>Total Equity</b>	<b>₱72,704,167,999</b>	<b>₱55,266,639,084</b>

## 19. Business Combinations

### Business Combination and Goodwill

On March 23, 2018, the Board of Directors of RRHI and MCBV approved the acquisition by RRHI of MCBV's 100% stake in RSCI through a share for share swap involving shares of RSCI in exchange for primary common shares of RRHI equivalent to 12.15% stake. RSCI operates food retail brands "Marketplace by Rustan's", "Rustan's Supermarket", "Shopwise Hypermarket", "Shopwise Express" and "Wellcome".

RRHI agreed to pay MCBV at an agreed price which was settled by the issuance of 191.49 million new RRHI common shares as consideration for the value of the net assets of RSCI. RRHI engaged an independent financial advisor to review the transaction and render a fairness opinion on the transaction and the consideration payable by RRHI. The independent financial advisor completed its review and concluded that the acquisition of the net assets is fair and reasonable and in the interest of RRHI shareholders as a whole.

The completion of the acquisition was subjected to the procurement of certain regulatory and other approvals including:

- i. Approval by the shareholders of RRHI of the issuance of primary shares;
- ii. Approval of the transaction by the Philippine Competition Commission; and
- iii. Confirmation by the SEC of the valuation of the entire issued share capital of RSCI to be exchanged for the primary shares of RRHI.

The acquisition was completed on November 23, 2018 as agreed in the Shareholders Agreement which is seven days after the confirmation by the SEC of the valuation of the entire issued share capital of RSCI to be exchanged for the primary shares of RRHI on November 16, 2018. Approvals (i) and (ii) were obtained on May 28, 2018 and August 16, 2018, respectively. On November 23, 2018, the market value of RRHI shares amounted to ₱72.05 per share. Transaction costs related to the issuance of new shares amounted to ₱64.50 million was charged to 'Additional paid-in capital'.

The purchase price consideration has been allocated to the assets and liabilities on the basis of provisional values at the date of acquisition as follows:

	Provisional fair values recognized on acquisition
<b>Assets</b>	
Cash	₱103,162,382
Trade and other receivables	384,075,105
Merchandise inventories	3,073,734,206
Other current assets	912,897,897
Property and equipment (Note 12)	3,897,725,011
Trademarks arising from acquisition (Note 14)	3,398,600,050
Other noncurrent assets	684,781,136
	12,454,975,787
<b>Liabilities</b>	
Trade and other payables	(4,633,625,787)
Loans payable	(1,500,000,000)
Income tax payable	(39,346,173)
Other current liabilities	(60,595,212)
Retirement obligation	(283,655,342)
Deferred tax liability	(961,623,483)
Other noncurrent liabilities	(288,707,463)
	(7,767,553,460)
<b>Net assets acquired</b>	4,687,422,327
Provisional goodwill from the acquisition (Note 14)	9,109,386,061
<b>Purchase consideration transferred</b>	₱13,796,808,388

The net assets recognized at the date of acquisition were based on provisional fair values of the assets owned by RSCI, which will be determined through an independent valuation. The result of this valuation had not been finalized as at March 14, 2019.

Total consolidated revenue would have increased by ₱24,420.0 million, while consolidated net income would have decreased by ₱1,050.0 million for the year ended December 31, 2018 had the acquisition of RSCI takes place at the beginning of the year. Total revenues and net loss of RSCI included in the consolidated statement of comprehensive income amounted to ₱3,010.0 million and to ₱100.95 million, respectively, from November 23, 2018 to December 31, 2018.

As a result of the transaction, provisional goodwill amounting to ₱9.11 billion, representing the difference between the total consideration of ₱13.80 billion and the provisional value of net assets acquired of ₱4.69 billion, was recognized (Note 14). The provisional goodwill of ₱9.11 billion comprises the expected synergies arising from acquisition. The provisional goodwill and trademarks were not tested for impairment since the acquisition occurred in the fourth quarter of 2018 and there was no material change in RSCI's business since obtaining the fairness opinion from an independent financial advisor.

*Acquisition of TGPPI*

On May 17, 2016, SSDI acquired 51% of TGPPI for a total consideration of ₱2.26 billion. In 2016, the Group finalized the purchase price allocation and the amount of resulting goodwill. The final purchase price allocation resulted in goodwill of ₱1.28 billion.

	Fair values recognized on acquisition
Assets	
Current assets	₱1,231,511,879
Trademarks (Note 14)	1,264,098,435
Property and equipment	102,639,683
Other non-current assets	15,682,708
Assets	2,613,932,705
Liabilities	(311,916,567)
Deferred tax liability	(379,229,531)
Net assets before non-controlling interest	1,922,786,607
Non-controlling interest measured at share of net assets (49%)	942,165,437
Net assets (51%)	980,621,170
Goodwill arising on acquisition (Note 14)	1,281,428,830
Acquisition cost	₱2,262,050,000

From the date of acquisition, TGPPI contributed ₱2,600.0 million revenue and ₱284.42 million income before income tax of the Group. If the combination had taken place at the beginning of 2016, the Group's revenue and income before tax in 2016 would have been higher by ₱1,340.0 million and ₱165.47 million, respectively. TGPPI is incorporated on September 15, 2010.

The goodwill of ₱1.28 billion comprises the expected synergies arising from acquisition. The goodwill recognized is not expected to be deductible for income tax purposes.

*Acquisition of HPTDI*

On August 1, 2016, RHIB acquired 75% ownership of HPTDI for a total consideration of ₱58.50 million.

In 2016, the Group finalized the purchase price allocation and the fair value computation of goodwill. The final purchase price allocation resulted in goodwill of ₱30.0 million.

	Fair values recognized on acquisition
Assets	
Property and equipment	₱33,928,571
Input VAT	4,071,429
Net assets before non-controlling interest	38,000,000
Non-controlling interest measured at share of net assets (25%)	9,500,000
Net assets (75%)	28,500,000
Goodwill arising on acquisition (Note 14)	30,000,000
Acquisition cost	₱58,500,000

From the date of acquisition, HPTDI contributed ₱95.43 million revenue and ₱0.28 million income before income tax of the Group. HPTDI is incorporated on May 4, 2016 and started its commercial operation on August 1, 2016. The goodwill of ₱30.0 million comprises the expected synergies arising from acquisition. The goodwill recognized is not expected to be deductible for income tax purposes.

Material Partly-Owned Subsidiary

In 2018 and 2017, the Group has 49.00% proportion of equity interest held by non-controlling interests attributable to TGPPI. Accumulated balances of material non-controlling interest amounted to ₱580.69 million, ₱408.86 million and ₱624.99 million in 2018, 2017 and 2016, respectively. Profit allocated to material non-controlling interest amounted to ₱238.68 million, ₱237.23 million and ₱155.08 million in 2018, 2017 and 2016, respectively. Total assets of TGPPI as of December 31, 2018 and 2017 amounted to ₱1,818.38 million and ₱1,716.11 million, respectively, while total liabilities as of December 31, 2018 and 2017 amounted to ₱679.77 million and ₱625.49 million, respectively. Total sales in 2018, 2017 and 2016 amounted to ₱4,335.08 million, ₱4,193.39 million and ₱3,893.20 million, respectively. Net income in 2018, 2017 and 2016 amounted to ₱464.73 million, ₱464.85 million and ₱305.34 million, respectively.

Combination of Entities under Common Control

On October 3, 2016, RI acquired 100% ownership of Chic Centre Corporation for a total consideration of ₱27.80 million. Chic Center Corporation is an entity under common control. Accordingly, the Group accounted the business combination of Chic Center Corporation using the prospective pooling of interest method.

The carrying amounts of total assets and liabilities of Chic Centre Corporation at the date of acquisition were:

	Carrying amounts recognized on acquisition
Assets	
Current assets	₱282,006,264
Property and equipment	55,957,840
Deferred tax assets	2,748,968
	340,713,072
Liabilities	(307,374,895)
Net asset	33,338,177
Acquisition cost	(27,830,000)
	₱5,508,177

The assets, liabilities and equity of Chic Centre Corporation are included in the consolidated financial statements at their carrying amounts. The profit and loss of the acquirees are consolidated from the date of acquisition. The difference between the consideration paid for the acquisition and the net assets acquired amounting to ₱5.51 million is accounted for as “Equity reserve” (Note 18). Comparative periods are not restated.

On January 4, 2016, the Parent Company acquired 100% ownership of NDV Limited for a total consideration of ₱2.35 million.

## 20. Sales Revenue

Sales are recognized from customers at the point of sale in the stores and upon delivery.

Sales returns and sales discounts deducted from the sales to arrive at the net sales amounted to ₱4.55 billion, ₱3.77 billion and ₱2.74 billion in 2018, 2017 and 2016, respectively.

### *Disaggregated revenue information*

Set out below is the disaggregation of the Company's revenue from contracts with customers:

Segments	For the year ended December 31, 2018						Total
	Supermarket	Department Store	DIY	Convenience Store	Drug Store	Specialty Store	
<b>Type of goods or service</b>							
Sale of goods - retail	₱62,362,494,774	₱17,780,879,313	₱13,905,046,303	₱-	₱15,823,983,850	₱18,199,803,880	₱128,072,208,120
Sale of merchandise to franchisees	-	-	-	6,176,910,080	-	-	6,176,910,080
Franchise revenue	-	-	-	7,221,915	42,472,718	-	49,694,633
Royalty fee	-	-	-	1,882,097,405	59,926,262	-	1,942,023,667
	₱62,362,494,774	₱17,780,879,313	₱13,905,046,303	₱8,066,229,400	₱15,926,382,830	₱18,199,803,880	₱136,240,836,500
<b>Timing of revenue recognition</b>							
Goods transferred at point in time	₱62,362,494,774	₱17,780,879,313	₱13,905,046,303	₱6,176,910,080	₱15,823,983,850	₱18,199,803,880	₱134,249,118,200
Services transferred over time	-	-	-	1,889,319,320	102,398,980	-	1,991,718,300
	₱62,362,494,774	₱17,780,879,313	₱13,905,046,303	₱8,066,229,400	₱15,926,382,830	₱18,199,803,880	₱136,240,836,500

Intersegment eliminating adjustments related to sale of goods amounted to ₱1.57 billion (Note 6).

## 21. Operating Expenses

This account consists of:

	2018	2017	2016
Rental and utilities (Notes 24 and 28)	<b>₱10,508,824,120</b>	₱8,959,404,658	₱8,381,892,384
Personnel costs and contracted services (Notes 22 and 23)	<b>7,585,433,667</b>	6,431,793,533	5,563,169,739
Depreciation and amortization (Notes 12 and 14)	<b>2,395,085,036</b>	2,073,037,176	2,038,230,133
Transportation and travel	<b>1,241,660,822</b>	1,083,492,425	1,005,549,080
Supplies	<b>806,241,418</b>	760,801,644	622,054,994
Advertising	<b>705,204,990</b>	723,145,718	573,330,970
Bank and credit charges	<b>663,624,324</b>	547,994,430	488,281,599
Repairs and maintenance	<b>587,624,491</b>	438,011,103	347,870,477
Royalty expense (Note 29)	<b>189,196,515</b>	169,747,191	159,815,306
Others	<b>948,506,781</b>	561,728,077	471,679,059
	<b>₱25,631,402,164</b>	₱21,749,155,955	₱19,651,873,741

Others consist mainly of taxes and licenses, insurance and professional fees and allowance for impairment losses on trade and other receivables (Note 8).

Depreciation and amortization pertains to:

	2018	2017	2016
Property and equipment (Note 12)	<b>₱2,377,059,872</b>	₱2,058,368,620	₱2,023,633,040
Franchise and license fees (Note 14)	<b>18,025,164</b>	14,668,556	14,597,093
	<b>₱2,395,085,036</b>	₱2,073,037,176	₱2,038,230,133

## 22. Personnel Costs and Contracted Services

This account consists of:

	2018	2017	2016
Salaries, allowances and benefits (Note 21)	<b>₱4,162,098,867</b>	₱3,418,503,809	₱2,660,727,005
Contracted services (Note 21)	<b>3,423,334,800</b>	3,013,289,724	2,902,442,734
	<b>₱7,585,433,667</b>	₱6,431,793,533	₱5,563,169,739

Details of salaries, allowances and benefits:

	2018	2017	2016
Salaries, wages and allowances	<b>₱4,006,099,584</b>	₱3,247,551,513	₱2,544,088,072
Retirement expense (Note 23)	<b>155,999,283</b>	170,952,296	116,638,933
	<b>₱4,162,098,867</b>	₱3,418,503,809	₱2,660,727,005

### 23. Employee Benefits

The Group has a funded, non-contributory, defined benefit pension plan covering all regular permanent employees. Benefits are dependent on years of service and the respective employee's final compensation. The benefits are paid in a lump-sum upon retirement or separation in accordance with the terms of the Robinsons Retail Multi-Employer Retirement Plan, South Star Drug Retirement Plan and Rustan Supercenters Retirement Plan (the Plan).

The Group computes the actuarial valuation every year by hiring the services of a professional third party qualified actuary.

The Group is a member of the Plan which is administered separately by the Trustee, RBC, Metrobank Corporation and Bank of the Philippine Islands, so named under the Trust Agreement. The Trustee is under the supervision of the Retirement Working Committee (the Committee) of the Plan. The Committee shall have all the powers necessary or useful in the discharge of its duties, including but not limited, to implement and administer the plan, propose changes and determine the rights of the members of the plan. However, changes or revisions in the Plan shall be approved by the Executive Retirement Committee.

The Committee may seek the advice of counsel and appoint an investment manager or managers to manage the Retirement Fund, an independent accountant to audit the Fund and an actuary to value the Plan.

Under the existing regulatory framework, Republic Act (RA) No. 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The components of retirement expense under "Operating expenses" account in the consolidated statements of comprehensive income are as follow:

	2018	2017	2016
Current service cost	<b>₱135,673,669</b>	₱142,074,946	₱93,186,487
Net interest cost	<b>20,325,614</b>	28,877,350	23,452,446
Retirement expense	<b>₱155,999,283</b>	₱170,952,296	₱116,638,933

Net retirement obligation as of December 31, 2018 and 2017 recognized in the consolidated statements of financial position follow:

	2018	2017
Present value of defined benefit obligation	<b>₱1,052,484,292</b>	₱967,786,781
Fair value of plan assets	<b>(818,276,606)</b>	(421,598,614)
Net retirement obligation	<b>₱234,207,686</b>	₱546,188,167

The movements in net retirement obligation recognized in the consolidated statements of financial position follow:

	2018	2017
Balance at beginning of year	₱546,188,167	₱609,529,248
Additions arising from business combination (Note 19)	283,655,342	-
Retirement expense	155,999,283	170,952,296
Remeasurement (gain) loss	(342,862,134)	4,389,439
Actual contribution	(387,521,455)	(234,909,126)
Benefits paid from direct payments	(21,251,517)	(3,773,690)
<b>Balance at end of year</b>	<b>₱234,207,686</b>	<b>₱546,188,167</b>

Remeasurement effects recognized in OCI:

	2018	2017
Remeasurement gains (losses) on:		
Retirement obligation	₱406,864,233	₱28,326,843
Retirement plan assets	(64,002,099)	(32,716,282)
	<b>₱342,862,134</b>	<b>(₱4,389,439)</b>

Movements of cumulative remeasurement effect recognized in OCI:

	2018	2017
Balance at beginning of year	(₱182,643,820)	(₱256,530,304)
Actuarial gain	406,864,233	28,326,843
Return on assets excluding amount included in net interest cost	(64,002,099)	(32,716,282)
Total remeasurement	160,218,314	(260,919,743)
Income tax effect	(48,065,494)	78,275,923
	<b>₱112,152,820</b>	<b>(₱182,643,820)</b>

Movements in the fair value of plan assets follow:

	2018	2017
Balance at beginning of year	₱421,598,614	₱212,260,323
Additions arising from business combination (Note 19)	40,897,816	-
Actual contribution	387,521,455	234,909,126
Benefits paid	(1,145,647)	(9,931,597)
Interest income included in net interest cost	33,406,467	17,077,044
Remeasurement loss	(64,002,099)	(32,716,282)
<b>Balance at end of year</b>	<b>₱818,276,606</b>	<b>₱421,598,614</b>

Changes in the present value of defined benefit obligation follow:

	2018	2017
Balance at beginning of year	₱967,786,781	₱821,789,571
Additions arising from business combination (Note 19)	324,553,158	-
Current service cost	135,673,669	142,074,946
Interest cost	53,732,081	45,954,394
Remeasurement gain arising from:		
Changes in financial assumptions	(307,538,498)	(27,133,646)
Experience adjustments	(82,362,765)	(574,429)
Changes in demographic assumptions	(16,962,970)	(618,768)
Benefits paid	(22,397,164)	(13,705,287)
Balance at end of year	<b>₱1,052,484,292</b>	₱967,786,781

The fair value of net plan assets of the Group by each class as at the end of the reporting period are as follows:

	2018	2017
Cash and cash equivalents		
Savings deposit	₱1,688,422	₱388,792
Investments in government securities		
Fixed rate treasury notes	16,439,885	16,877,654
Investments in UITF	800,037,660	404,202,880
Other receivables	133,151	153,595
Accrued trust fee payable	(22,512)	(24,307)
	<b>₱818,276,606</b>	₱421,598,614

The principal assumptions used in determining pensions for the Group's plan are shown below:

	2018	2017
Discount rates	7.19% - 7.46%	4.90% - 5.60%
Salary increase rates	3.00% - 7.70%	5.70% - 7.00%

The carrying amounts disclosed above reasonably approximate fair values at each reporting period. The actual return (loss) on plan assets amounted to (₱30.60 million), (₱15.64 million) and ₱22.67 million in 2018, 2017 and 2016, respectively.

The Group expects to contribute ₱299.18 million to the defined benefit plan in 2019.

Remeasurement effects attributable to the equity holders of the Parent Company follows:

	2018	2017
Balances at the beginning of year	₱236,820,467	₱240,395,120
Remeasurement gains (losses) during the year	240,376,507	(3,574,653)
Balances at end of year	<b>₱477,196,974</b>	₱236,820,467

The sensitivity analyses that follow has been determined based on reasonably possible changes of the assumption occurring as of the end of the reporting period, assuming if all other assumptions were held constant.

		<b>Increase (Decrease)</b>	<b>Effect in Defined Benefit Obligation</b>
<b>2018</b>	<b>Salary increase</b>	+1.00%	<b>₱96,724,955</b>
		-1.00%	<b>(82,990,856)</b>
	<b>Discount rates</b>	+1.00%	<b>(77,198,339)</b>
		-1.00%	<b>66,855,480</b>
2017	Salary increase	+1.00%	₱290,936,127
		-1.00%	(161,085,306)
	Discount rates	+1.00%	(133,966,262)
		-1.00%	328,900,041

Each year, an Asset-Liability Matching Study (ALM) is performed with the result being analyzed in terms of risk-and-return profiles. The principal technique of the Group's ALM is to ensure the expected return on assets to be sufficient to support the desired level of funding arising from the defined benefit plans.

Shown below is the maturity analysis of the undiscounted benefit payments:

	<b>2018</b>	2017
Less than 1 year	<b>₱93,327,604</b>	₱47,864,692
More than 1 year but less than 5 years	<b>255,986,130</b>	148,976,023
More than 5 years but less than 10 years	<b>517,995,321</b>	416,750,644
More than 10 years but less than 15 years	<b>767,895,040</b>	562,283,554
More than 15 years but less than 20 years	<b>1,134,757,501</b>	808,632,826
More than 20 years	<b>5,596,509,099</b>	6,213,573,653

## 24. Related Party Disclosures

Parties are related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions and the parties are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

### Significant Related Party Transactions

The Group, in the regular conduct of business, has receivables from/payables to related parties arising from the normal course of operations.

1. The following are the Group's transactions with its related parties:

	Amount			Due from (Due to)	
	2018	2017	2016	2018	2017
<b>Other affiliates under common control</b>					
a. Trade and other receivables					
Sales	<b>₱3,214,288,927</b>	₱2,804,711,625	₱3,002,659,968	<b>₱325,303,347</b>	₱146,826,951
Royalty income	<b>1,443,589,170</b>	1,261,104,503	1,250,377,301	-	-
b. Trade and other payable					
Purchases - net	<b>(2,896,390,334)</b>	(2,832,232,330)	(2,731,155,634)	-	-
Rent and utilities	<b>(4,462,345,647)</b>	(3,949,827,999)	(3,571,891,299)	<b>(541,174,032)</b>	(543,615,340)

Below are the Group's transactions with its related parties:

- a. As of December 31, 2018 and 2017, the Group has outstanding balances from its other affiliates amounting to ₱325.30 million and ₱146.83 million, respectively, arising primarily from sales of merchandise inventories and royalty income for grant of use and right to operate stores of the Group.

In 2018, 2017 and 2016, sales of merchandise inventories to related parties amounted to ₱3.21 billion, ₱2.80 billion and ₱3.00 billion, respectively, and royalty income amounted to ₱1.44 billion, ₱1.26 billion and ₱1.25 billion, respectively (Note 29).

- b. As of December 31, 2018 and 2017, the Group has outstanding payable to its other affiliates amounting to ₱541.17 million and ₱543.62 million, respectively, arising from purchases of merchandise inventories for resale to its customers which are normally paid within the year and expenses for rent and utilities relative to the Group's operations. Lease agreements are cancellable and normally have terms of 5 to 20 years with escalation clauses ranging from 5% to 10% every year and renewable every year.

In 2018, 2017 and 2016, purchases of merchandise inventories for resale to customers amounted ₱2.90 billion, ₱2.83 billion and ₱2.73 billion, respectively while expenses for rent and utilities amounted to ₱4.46 billion, ₱3.95 billion and ₱3.57 billion, respectively.

- c. The Group maintains savings and current accounts and money market placements with RBC. Cash and cash equivalents earns interest at the prevailing bank deposit rates.

Affiliates are related parties by the Group by virtue of common ownership and representations to management where significant influence is apparent.

2. There are no agreements between the Group and any of its directors and key officers providing for benefits upon termination of employment, except for such benefits to which they may be entitled under the Group's retirement plans.

The details of compensation and benefits of key management personnel for 2018, 2017 and 2016 follow:

	2018	2017	2016
Short-term employee benefits	<b>₱144,741,622</b>	₱140,592,485	₱135,091,073
Post-employment benefits	<b>25,737,872</b>	37,004,324	30,916,815
	<b>₱170,479,494</b>	₱177,596,809	₱166,007,888

*Terms and Conditions of Transactions with Related Parties*

Outstanding balances at year-end are unsecured, interest-free and settlement occurs in cash. There have been no guarantees provided or received for any related party payables or receivables. The Group did not recognize provision for expected credit losses relating to amounts due from related parties for the years ended December 31, 2018, 2017 and 2016. This assessment is undertaken each financial year through a review of the financial position of the related party and the market in which the related party operates.

**25. Income Tax**

Provision for income tax for the years ended December 31 follows:

	2018	2017	2016
Current	<b>₱1,807,600,901</b>	₱1,785,241,581	₱1,540,728,580
Deferred	<b>(35,579,353)</b>	(81,928,619)	(69,454,983)
	<b>₱1,772,021,548</b>	₱1,703,312,962	₱1,471,273,597

The components of the net deferred tax assets of the Group as of December 31, 2018 and 2017 pertain to the deferred tax effects of the following:

	2018	2017
Tax effects of:		
<i>Items recognized in profit or loss:</i>

On December 19, 2017, the RA No.10963 or the Tax Reform for Acceleration and Inclusion Act (TRAIN) was signed into law and took effect January 1, 2018, making the new tax law enacted as of the reporting date. Although the TRAIN changed existing tax law and includes several provisions that generally affected businesses on a prospective basis, the management assessed that the same did not have any significant impact on the financial statement balances as of the reporting date.

On November 26, 2008, the BIR issued Revenue Regulation No. 16-2008 which implemented the provisions of RA No. 9504 on Optional Standard Deduction (OSD). This regulation allowed both individual and corporate taxpayers to use OSD in computing their taxable income. For corporations, they may elect standard deduction in an amount equivalent to 40% of the gross income, as provided by law, in lieu of the itemized allowable deductions. In 2018, 2017 and 2016 certain subsidiaries elected OSD in the computation of its taxable income.

## 26. Earnings Per Share

The following table presents information necessary to calculate EPS on net income attributable to equity holders of the Parent Company:

	<b>2018</b>	2017	2016
Net income attributable to equity holders of the Parent Company	<b>₱5,107,328,539</b>	₱4,978,039,066	₱4,830,140,965
Weighted average number of common shares	<b>1,400,957,447</b>	1,385,000,000	1,385,000,000
Basic and Diluted EPS	<b>₱3.65</b>	₱3.59	₱3.49

	2018	2017	2016
No. of shares at the beginning of year	1,385,000,000	1,385,000,000	1,385,000,000
Weighted average number of shares issued during the year	15,957,447	—	—
Weighted average number of common shares	1,400,957,447	1,385,000,000	1,385,000,000

The Parent Company has no dilutive potential common shares in 2018, 2017 and 2016.

---

## 27. Risk Management and Financial Instruments

### Governance Framework

The primary objective of the Group's risk and financial management framework is to protect the Group's shareholders from events that hinder the sustainable achievement of financial performance objectives, including failing to exploit opportunities. Key management recognizes the critical importance of having efficient and effective risk management systems in place.

The BOD approves the Group's risk management policies and meets regularly to approve any commercial, regulatory and organizational requirements of such policies. These policies define the Group's identification of risk and its interpretation, limit structure to ensure the appropriate quality and diversification of assets and specify reporting requirements.

### Financial Risk

The main purpose of the Group's financial instruments is to fund its operations and capital expenditures. The main risks arising from the Group's financial instruments are market risk, liquidity risk and credit risk. The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options.

#### *Market Risk*

Market risk is the risk of loss to future earnings, to fair value of cash flows of a financial instrument as a result of changes in its price, in turn caused by changes in interest rates, foreign currency exchange rates equity prices and other market factors.

#### *Interest Rate Risk*

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group has minimal interest rate risk because the interest-bearing loans are short-term in nature and bear fixed interest rates.

#### *Price Interest Rate Risk*

The Group is exposed to the risks of changes in the value/future cash flows of its financial instruments due to its market risk exposures. The Group's exposure to interest rate risk relates primarily to the Group's financial assets at FVTPL, FVOCI and AFS financial assets.

The table below shows the impact on income before tax of the estimated future yield of the related market indices of the Group's financial assets at FVTPL, FVOCI and AFS financial assets using a sensitivity approach.

Reasonably Possible Changes in Interest Rates	Change in Income Before Income Tax	
	2018	2017
+100 basis points (bps)	<b>₱9,198,181</b>	₱9,363,465
-100 bps	<b>(9,198,181)</b>	(9,363,465)

#### *Foreign Currency Risk*

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's principal transactions are carried out in Philippine Peso (₱) but maintain a minimal balance of foreign currency. The Group's currency risk arises mainly from foreign currency-denominated cash and cash equivalents, interest receivable, financial assets at FVOCI, and AFS financial assets which are denominated in currency other than the Group's functional currency.

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities).

	Increase (decrease) in foreign currency rate		Effect on income before income tax (₱)	
	2018	2017	2018	2017
USD	+1.13%	+0.85%	<b>₱48,071,706</b>	₱38,147,107
	-1.13%	-0.85%	<b>(48,071,706)</b>	(38,147,107)

The Group used foreign exchange rate of ₱52.58:USD1 and ₱49.93: USD1 as of December 31, 2018, and 2017, respectively, in converting its dollar-denominated financial assets to peso.

The sensitivity analyses shown above are based on the assumption that the movements in US dollars will more likely be limited to the upward or downward fluctuation of 1.13% and 0.85% in 2018 and 2017 respectively. The forecasted movements in percentages used were sourced by management from an affiliated bank. These are forecasted movements in the next twelve months.

The foreign currency-denominated financial assets in original currencies and equivalents to the functional and presentation currency in 2018 and 2017 are as follows:

	2018		2017	
	USD	PHP	USD	PHP
Cash and cash equivalents	<b>\$1,447,926</b>	<b>₱76,131,949</b>	\$6,112,971	₱305,220,642
Receivables	<b>766,277</b>	<b>40,290,845</b>	1,098,779	54,862,035
AFS financial assets	–	–	82,159,892	4,102,243,408
FVOCI with recycling	<b>78,704,449</b>	<b>4,138,279,928</b>	–	–
<b>Total</b>	<b>\$80,918,652</b>	<b>₱4,254,702,722</b>	<b>\$89,371,642</b>	<b>₱4,462,326,085</b>

The effect on the Group's income before tax is computed on the carrying value of the Group's foreign currency denominated financial assets and liabilities as at December 31, 2018 and 2017. There is no impact on equity other than those already affecting income before income tax.

*Equity Price Risk*

The Group's equity price risk exposure at year-end relates to financial assets whose values will fluctuate as a result of changes in market prices, principally, equity securities classified as financial assets at FVOCI in 2018 and AFS financial assets in 2017.

Quoted equity securities are subject to price risk due to changes in market values of instruments arising either from factors specific to individual instruments or their issuers or factors affecting all instruments traded in the market.

Quoted equity security consists of marketable equity security that is listed and traded on the PSE. The fair market value of the listed shares is based on the quoted market price as of December 31, 2018 and 2017.

The analyses below are performed for reasonably possible movements in the PSE Index with all other variables held constant, showing the impact on equity:

	<b>Change in variable</b>	<b>Effect on equity- Other comprehensive income</b>
<b>2018</b>	<b>+17.95%</b>	<b>₱68,645,011</b>
	<b>-17.95%</b>	<b>(68,645,011)</b>
2017	+11.86%	₱15,243,594
	-11.86%	(15,243,594)

The sensitivity analyses shown above are based on the assumption that the movement in PSE composite index and other quoted equity securities will be most likely be limited to an upward or downward fluctuation of 17.95% and 11.86% in 2018 and 2017, respectively.

For quoted securities, the Group, used as basis of these assumptions, the annual percentage change in PSE composite index.

The impact of sensitivity of equity prices on the Group's equity already excludes the impact on transactions affecting the consolidated statements of income.

*Liquidity Risk*

Liquidity or funding risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments.

The Group seeks to manage its liquidity profile to be able to finance its capital expenditures and operations. The Group maintains a level of cash and cash equivalents deemed sufficient to finance operations. As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows.

The table below shows the maturity profile of the financial instruments of the Group as of December 31, 2018 and 2017 based on the remaining period at the reporting date to their contractual maturities and are also presented based on contractual undiscounted repayment obligations.

**December 31, 2018**

	On Demand	One (1) year	More than One (1) year	Total

\*Excluding statutory liabilities amounting ₱148,095,672.

**Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Group's trade and other receivables are actively monitored by the Collection Services Department to avoid significant concentrations of credit risk.

The Group has adopted a no-business policy with customers lacking an appropriate credit history where credit records are available.

The Group manages the level of credit risk it accepts through a comprehensive credit risk policy setting out the assessment and determination of what constitutes credit risk for the Group. The Group's policies include the following: setting up of exposure limits by each counterparty or group of

counterparties; right of offset where counterparties are both debtors and creditors; reporting of credit risk exposures; monitoring of compliance with credit risk policy; and review of credit risk policy for pertinence and the changing environment.

The Group's maximum exposure in financial assets (excluding cash on hand amounting to ₱2.17 billion and ₱1.29 billion in 2018 and 2017, respectively) are equal to their carrying amounts. This was determined based on the nature of the counterparty and the Group's experience.

### *Credit Quality*

The Group maintains internal credit rating system. Neither past due nor impaired financial assets are graded as either "A" or "B" based on the following criteria:

- Grade A are accounts considered to be of high value. The counterparties have a very remote likelihood of default and have consistently exhibited good paying habits.
- Grade B are active accounts with minimal to regular instances of payment default, due to collection issues. These accounts are typically not impaired as the counterparties generally respond to the Group's collection efforts and update their payments accordingly.

Cash in banks and cash equivalents are short-term placements and working cash fund placed, invested or deposited in reputable foreign and local banks in the Philippines. These financial assets are classified as Grade A due to the counterparties' low probability of insolvency.

Receivables and due from franchisees are Grade A because they are from related parties, employees and accredited customers who are highly reputable, progressive and consistently pay their accounts.

Security and other deposits and construction bond are Grade A since these were paid to creditworthy third parties.

Financial assets at FVOCI, FVTPL and AFS financial assets are Grade A because these are securities placed in entities with good favorable credit standing.

The Group's financial assets considered as neither past due nor impaired amounting to ₱36.46 billion and ₱37.73 billion as of December 31, 2018 and 2017, respectively are all graded "A" based on the Group's assessment.

The tables below show the aging analysis of financial assets classified as amortized cost, loans and receivables, FVOCI and AFS financial assets as of December 31, 2018 and 2017.

### **2018**

*Impairment of Financial Assets (applicable from January 1, 2018)*

The Company has the following financial assets that are subject to the expected credit loss model under PFRS 9:

- Cash and cash equivalents;
- Trade receivables;
- Debt securities at FVOCI; and
- Other debt instruments carried at amortized cost

Other debt instruments carried at amortized cost include accrued interest receivables, refundable security and other deposits, advances to employees and officers and receivable from insurance. These are also subject to impairment requirements of PFRS 9, the identified impairment losses were immaterial.

*Cash and Cash Equivalents and Debt Securities at FVOCI.* Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The Group invests only on quoted debt securities with very low credit risk. The Group's debt instruments at FVOCI comprised solely of quoted bonds that are have a minimum BBB- credit rating by S&P Global Ratings and, therefore, are considered to be low credit risk investments. The Group recognized provision for expected credit losses on its debt instruments at FVOCI amounting to ₱13.13 million in 2018 (Note 11).

*Trade Receivables.* The Group applies the PFRS 9 simplified approach in measuring ECL which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group recognized provision for expected credit losses on its trade receivables amounting to ₱46.75 million in 2018 (Note 8).

The ending loss allowances as of December 31, 2018 reconcile to the opening loss allowances as follows:

Balances as of January 1, 2018, as calculated under PAS 39	₱110,387,770
Amount restated through opening retained earnings	–
Balances as of January 1, 2018, as calculated under PFRS 9	110,387,770
Provision	46,748,194
Write off (Note 8)	(789,116)
<b>Balances as of December 31, 2018</b>	<b>₱156,346,848</b>

A summary of Group exposure to credit risk under general and general approach as of December 31, 2018 follows:

	General Approach			Simplified Approach
	Stage 1	Stage 2	Stage 3	
<b>Amortized cost</b>				
Cash and cash equivalents	₱12,613,663,128	₱–	₱–	₱–

*Impairment of Financial Assets (applicable prior to January 1, 2018)*

The Group recognizes impairment losses based on the results of its specific/individual and collective assessment of its credit exposures. Impairment has taken place when there is a presence of known difficulties in the servicing of cash flows by counterparties, infringement of the original terms of the contract has happened, or when there is an inability to pay principal overdue beyond a certain threshold. These and the other factors, either singly or in tandem, constitute observable events and/or data that meet the definition of an objective evidence of impairment.

The two methodologies applied by the Group in assessing and measuring impairment include: (1) specific/individual assessment; and (2) collective assessment.

Under specific/individual assessment, the Group assesses each individually significant credit exposure for any objective evidence of impairment, and where such evidence exists, accordingly calculates the required impairment. Among the items and factors considered by the Group when assessing and measuring specific impairment allowances are: (a) the timing of the expected cash flows; (b) the projected receipts or expected cash flows; (c) the going concern of the counterparty's business; (d) the ability of the counterparty to repay its obligations during financial crises; (e) the availability of other sources of financial support; and (f) the existing realizable value of collateral. The impairment allowances, if any, are evaluated as the need arises, in view of favorable or unfavorable developments.

With regard to the collective assessment of impairment, allowances are assessed collectively for losses on receivables that are not individually significant and for individually significant receivables when there is no apparent nor objective evidence of individual impairment yet. A particular portfolio is reviewed on a periodic basis in order to determine its corresponding appropriate allowances. The

collective assessment evaluates and estimates the impairment of the portfolio in its entirety even though there is no objective evidence of impairment yet on an individual assessment. Impairment losses are estimated by taking into consideration the following deterministic information: (a) historical losses/write-offs; (b) losses which are likely to occur but have not yet occurred; and (c) the expected receipts and recoveries once impaired.

In 2017 and 2016, provision for impairment losses on receivables amounted to ₱21.51 million and ₱58.83 million, respectively (Note 8).

#### Fair Values of Financial Assets and Liabilities

The methods and assumptions used by the Group in estimating the fair value of financial asset and other financial liabilities are:

- Due to the short-term nature of the transaction, the fair value of cash and cash equivalents and trade and other receivables approximates the carrying values at year-end.
- Security and other deposits and construction bond are presented at cost since the timing and amounts of future cash flows related to the refundable deposits are linked to the termination of the contract which cannot be reasonably and reliably estimated.
- Debt and equity instrument financial assets amounting to ₱19.75 billion and ₱20.67 billion as at December 31, 2018 and 2017, respectively were carried at fair values. Investments in bonds and quoted equity securities are derived from quoted market prices in active markets.
- Due to the short-term nature of trade and other payables, short-term loans payable and other current liabilities, their carrying values approximate fair values.

In 2018 and 2017, the Company's financial assets measured at fair value are categorized within the Level 1 fair value hierarchy.

---

## 28. Lease Commitments

### *Group as Lessee*

The Group has entered into cancellable lease agreements as a lessee with terms of one (1) year up to twenty-five (25) years. Most leases contain renewal options and a clause enabling annual upward revision of the rental charges based on prevailing market conditions. Other leases provide for the percentage rent which is a certain percentage of actual monthly sales. Rental expense in 2018, 2017 and 2016 amounted to ₱6.26 billion, ₱5.49 billion and ₱4.99 billion, respectively (Notes 21 and 24).

### *Group as a Lessor*

The Group has entered into operating leases on its building. Income from these leases is included in the "Royalty, Rent and Other Revenue" account in the consolidated statements of comprehensive income (Note 29).

There are no contingent rental income and expense under these operating leases both as lessee and lessor.

Accrued rent recognized in the consolidated statements of financial position as of December 31, 2018 amounting to ₱304.02 million pertains to RSCI's lease agreements arising from lease straight-lining.

---

## 29. Agreements

- a) The Group has exclusive right to use the Ministop System in the Philippines which was granted to the Group by Ministop Co. Ltd., a corporation organized in Japan. In accordance with the franchise agreement, the Group agrees to pay, among others, royalties to Ministop based on a certain percentage of gross profit.

Royalty expense amounted to ₱82.17 million, ₱74.12 million and ₱72.67 million in 2018, 2017 and 2016, respectively (Note 21). Royalty payable to Ministop included under “Other current liabilities” as of December 31, 2018 and 2017 amounted to ₱7.91 million and ₱6.81 million, respectively (Note 16).

- b) The Group has franchise agreements which mainly include providing store facilities and equipment to franchisees. Other services rendered by Ministop consist of providing personnel and utilities. The lease/royalty fee is based on a certain percentage of the gross profit of the lessee/franchisee. The related royalty income amounted to ₱1.88 billion, ₱1.72 billion and ₱1.71 billion in 2018, 2017 and 2016, respectively.

As of December 31, 2018 and 2017, amounts due from franchisees amounted to ₱409.22 million and ₱241.54 million, respectively. These amounts are net of allowance for impairment losses on due from franchisees amounting to ₱75.84 million and ₱63.84 million as of December 31, 2018 and 2017, respectively (Note 8).

- c) The Group obtained a license to use the Daiso Business Model in the Philippines that was granted to the Group by Daiso Industries Co., Ltd. (DICL) in Japan. In accordance with the license agreement, the Group agrees to pay, among others, royalties to DICL based on a certain percentage of monthly net sales.

Royalty expenses amounted to ₱10.11 million, ₱7.95 million and ₱6.31 million in 2018, 2017 and 2016, respectively.

- d) On September 21, 2012, RSSI paid ₱121.21 million in exchange for the trademarks that were duly registered in the Philippine Intellectual Rights Office. The trademark allows the Group to use the brand and operate its stores in the Philippines (Note 14).

Royalty expense amounted to ₱1.26 million in 2016.

- e) The Group is a sub-licensee of Toys R Us in the Philippines. The royalty fee is based on fixed percentage of gross monthly sales of sub-licensee. Royalty expense amounted to ₱89.78 million, ₱82.15 million and ₱75.41 million in 2018, 2017 and 2016, respectively.

- f) On July 29, 2014, Costa International Limited granted the Group the development and operating rights to carry on the Costa business in the Philippines (Note 14).

The Group started Costa operations in June 2015. Royalty expenses amounted to ₱7.04 million, ₱5.52 million and ₱4.17 million in 2018, 2017 and 2016, respectively.

- g) The Group has other licenses and franchises to carry various global brands.

### 30. Changes in Liabilities Arising from Financing Activities

#### 2018

	January 1, 2018	Net Cash Flows	Dividend Declaration	Others	December 31, 2018
Loans payable	₱6,377,954,863	(₱1,083,954,863)	₱-	₱1,500,000,000	₱6,794,000,000
Dividends payable	14,000,000	(1,266,370,255)	1,264,036,917	-	11,666,662
Total liabilities from financing activities	₱6,391,954,863	(₱850,325,118)	₱1,264,036,917	₱1,500,000,000	₱6,805,666,662

Others pertain to the short-term loans assumed in the acquisition of RSCI.

#### 2017

	January 1, 2017	Cash Flows	Dividend Declaration	December 31, 2017
Loans payable	₱6,575,698,733	(₱197,743,870)	₱-	₱6,377,954,863
Dividends payable	310,843,333	(1,624,143,333)	1,327,300,000	14,000,000
Total liabilities from financing activities	₱6,886,542,066	(₱1,821,887,203)	₱1,327,300,000	₱6,391,954,863

Interest paid in 2018 and 2017 amounted to ₱159.07 million and ₱127.38 million, respectively.

### 31. Contingencies

The Group has various contingent liabilities from legal cases arising from the ordinary course of business which are either pending decision by courts or are currently being contested by the Group, the outcome of which are not presently determinable.

In the opinion of the management and its legal counsel, the eventual liability under these lawsuits or claims, if any, will not have material adverse effect in the Group's financial position and results of operations.

### 32. Approval of the Consolidated Financial Statements

The accompanying consolidated financial statements were approved and authorized for issue by the BOD on March 14, 2019.

## **INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES**

The Board of Directors and Stockholders  
Robinsons Retail Holdings, Inc.  
43rd Floor, Robinsons Equitable Tower  
ADB Avenue corner Poveda Sts., Ortigas Center  
Pasig City, Metro Manila

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Robinsons Retail Holdings, Inc. and Subsidiaries (the Group) as at and for the years ended December 31, 2018 and 2017 and have issued our report thereon dated March 14, 2019. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The schedules listed in the Index to the Consolidated Financial Statements and Supplementary Schedules are the responsibility of the Group's management. These schedules are presented for purposes of complying with the Securities Regulation Code Rule No. 68, As Amended (2011) and are not part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, fairly state in all material respects, the information required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

Standards tagged as “Not applicable” have been adopted by the Company but have no significant covered transactions for the year ended December 31, 2018.

Standards tagged as “Not adopted” are standards issued but not yet effective as of December 31, 2018. The Company will adopt the Standards and Interpretations when these become effective.

**ROBINSONS RETAIL HOLDINGS, INC. AND SUBSIDIARIES**  
**USE OF PROCEEDS FROM INITIAL PUBLIC OFFERING**  
**FOR THE YEAR ENDED DECEMBER 31, 2018**

---

As disclosed in the Company's prospectus, gross and net proceeds were estimated at ₱26.79 billion and ₱26.07 billion, respectively for the Primary Offer (excluding any additional expenses that may be incurred in relation to the Over-allotment Option).

The Company received actual gross proceeds amounting to ₱26.79 billion from the Primary offering of 461,897,500 shares on November 11, 2013 and an additional ₱0.23 billion from the exercised over-allotment of 3,880,550 shares, and incurred ₱745.65 million IPO-related expenses, resulting to actual net proceeds of ₱26.27 billion.

For the year ended December 31, 2018, the application of the net proceeds is broken as follows:

<b>Use of Proceeds</b>	<b>Amount in Pesos</b>
Expansion of store network	₱2,017,115,071
Other corporate purposes	1,569,383,193
Renovation of existing stores	853,204,340
Repayment of bank loans	89,298,890
Total	₱4,529,001,494
