3) Explain how the board of directors plans for the succession of the CEO/Managing Director/President and the top key management positions?

One of our Company's core organizational systems is the Advancement Planning (AP) system. The AP system is an on-going process of identifying, assessing, and developing talents to ensure leadership continuity for all key positions and providing opportunities for key talents to grow within the organization. We assess incumbents / identified successors on 2 elements: performance over time and potential. Moreover, each identified successor is assessed based on his/her level of readiness to occupy the higher role. Specific development interventions per successor are also identified as part of the process. Every year, the AP System is reviewed by HR and top management to check whether the planned development interventions took place, and if the level of readiness of identified successors has progressed, among others.

The Competency-Based System and Performance Management System are two other core organizational systems that we have in place which allow us to properly utilize the Advanced Planning System.
